What is Domestic Violence?

Domestic violence is a pattern of coercive behavior in which one person attempts to control another person through threats or actual use of physical, emotional, psychological, financial, sexual or spiritual abuse.

Mission

The mission of Mississippi Coalition Against Domestic Violence (MCADV) is to bring about social change through advocacy, technical assistance and public awareness. We provide support for member shelter programs through training, technical assistance and capacity building; advocate for public policy that supports victims; and seek to change societal attitudes and beliefs through awareness and prevention activities in communities throughout Mississippi.

MCADV does not provide direct services for victims of domestic violence but supports the thirteen member shelter programs that offer direct services throughout Mississippi. We can help victims to find the support they need in their local communities.

Services

Education

MCADV provides training sessions, special events and resource materials to all sectors of the community, including law enforcement, professional, civic groups, and services providers.

Public Awareness

MCADV conducts ongoing statewide media campaigns aimed at specific target audiences including action-oriented communications to victims and the public.

Victim Referral Services

MCADV assists victims with referrals to local domestic violence shelters.

Clearing House/ Resource Library

MCADV maintains information on domestic violence programs and services within Mississippi and provides statistics, resources and information free upon request.

Networking

MCADV provides training, technical assistance, and support to member programs and coordinates efforts between programs and other community service agencies.
