BUREAU OF PUBLIC WATER SUPPLY
CALENDAR YEAR 2008 CONSUMER CONFIDENCE REPORT
CERTIFICATION FORM

LIBERTY ROAD TRAILER PARK
Public Water Supply Name

0550050
List PWS ID #s for all Water Systems Covered by this CCR

The Federal Safe Drinking Water Act requires each *community* public water system to develop and distribute a consumer confidence report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed to the customers, published in a newspaper of local circulation, or provided to the customers upon request.

Please Answer the Following Questions Regarding the Consumer Confidence Report

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

- Advertisement in local paper
- On water bills
- Other Posted Within Trailer Park Office

Date customers were informed: 6/26/09

CCR was distributed by mail or other direct delivery. Specify other direct delivery methods:

Date Mailed/Distributed 6/26/09

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: n/a

Date Published: 1/1

CCR was posted in public places. *(Attach list of locations)* Liberty Road Trailer Park

Date Posted: 6/26/09 2 Panther Circle

Picayune, MS 39466

601-799-0241

CCR was posted on a publicly accessible internet site at the address: www. n/a

CERTIFICATION

I hereby certify that a consumer confidence report (CCR) has been distributed to the customers of this public water system in the form and manner identified above. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

Water Supply System

Dear Ms Parker:

Please find enclosed documents entitled "2008 Consumer Confidence Report" and "Confirmation of Notice."

Also, I requested from the Carriere Department of Health to provide me with some dates that samples were delivered to their office and not listed on the Disinfectant Level Report. The results are as follows:

| <u>Date Sample</u> <u>Turned In</u> | <u>Delivered By</u> | <u>Type</u> |
|--|---------------------|--------------|
| 5-19-06 | Fancher | |
| 4-5-07 | J. Kahn | |
| 6-27-07 | J. Kahn | lead, copper |
| 7-18-07 | J. Kahn | |
| 8-13-07 | J. Kahn | rad |
| 9-25-07 | J. Kahn | |
| 9-28-07 | J. Kahn | |
| 10-11-07 | J. Kahn | lead, copper |
| 0-19-07 | J. Kahn | |
| 11-5-07 | J. Kahn | |
| 11-14-07 | R. Oliver | nitrate |
| 11-28-07 | J. Kahn | |
| 12-19-07 | J. Kahn | |
| 3-24-08 | J. Kahn | |
| 6-20-08 | J. Kahn | |
| 5-27-09 | C. McClendon | |
| 5-27-09 | C. McClendon | nitrate |

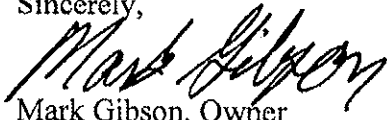

RECEIVED - WATER SUPPLY
2009 JUN 30 AM 8:41

Please revisit your records to verify the above mentioned information.

Should you have any additional questions, please call Reginald Oliver at 601-590-0046.

Thank you very much for your patience and cooperation.

Sincerely,

Mark Gibson, Owner

2008 Annual Drinking Water Quality Report
 Liberty Road Trailer Park
 PWS#:0550050
 September 2009

We're pleased to present to you this year's Annual Quality Water Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is from a well drawing from the Miocene Series Aquifer.

Our source water assessment is not available at this time. As soon as it is complete, you will be notified and copies of this assessment will be available at our office.

If you have any questions about this report or concerning your water utility, please contact Richard McLendon at 601.964.0132. We want our valued customers to be informed about their water utility. This report will be posted on the trailer park office bulletin board.

We routinely monitor for constituents in your drinking water according to Federal and State laws. This table below lists all of the drinking water contaminants that were detected during the period of January 1st to December 31st, 2008. In cases where monitoring wasn't required in 2008, the table reflects the most recent results. As water travels over the surface of land or underground, it dissolves naturally occurring minerals and, in some cases, radioactive materials and can pick up substances or contaminants from the presence of animals or from human activity; microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife; inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm-water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming; pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm-water runoff, and residential uses; organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations and septic systems; radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities. In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily indicate that the water poses a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL) - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) - The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control microbial contaminants.

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

| 2008 TEST RESULTS | | | | | | | | |
|-------------------------------|---------------|----------------|----------------|--|--------------------|------|-----|--|
| Contaminant | Violation Y/N | Date Collected | Level Detected | Range of Detects or # of Samples Exceeding MCL/ACL | Unit Measure -ment | MCLG | MCL | Likely Source of Contamination |
| Inorganic Contaminants | | | | | | | | |
| 10. Barium | N | 2005* | .0047 | No Range | ppm | 2 | 2 | Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits |
| 13. Chromium | N | 2005* | 2.1 | No Range | ppb | 100 | 100 | Discharge from steel and pulp mills; erosion of natural deposits |
| 16. Fluoride | N | 2005* | .378 | No Range | ppm | 4 | 4 | Erosion of natural deposits; water |

| | | | | | | | | |
|---------------------------|---|------|-----|----------|-----|---|---|---|
| | | | | | | | | additive which promotes strong teeth; discharge from fertilizer and aluminum factories |
| 20. Nitrite (as Nitrogen) | N | 2008 | .03 | No Range | ppm | 1 | 1 | Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits |

* Most recent sample. No sample required for 2008.

We are required to monitor your drinking water for specific constituents on a monthly basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Beginning January 1, 2004, the Mississippi State Department of Health (MSDH) required public water systems that use chlorine as a primary disinfectant to monitor/test for chlorine residuals as required by the Stage 1 Disinfection By-Products Rule. Our water system failed to complete these monitoring requirements for the period of Jan 2004, May, June, Oct – Dec of 2005, Jan – Dec 2006, and Jan 2007 – April 2008. We did complete the monitoring requirements for bacteriological sampling that showed no coliform present. In an effort to ensure systems complete all monitoring requirements, MSDH now notifies systems of any missing samples prior to the end of the compliance period.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our Water Association is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing for \$10 per sample. Please contact 601.576.7582 if you wish to have your water tested.

All sources of drinking water are subject to potential contamination by substances that are naturally occurring or man made. These substances can be microbes, inorganic or organic chemicals and radioactive substances. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline 1-800-426-4791.

*******A MESSAGE FROM MSDH CONCERNING RADIOLOGICAL SAMPLING*******

In accordance with the Radionuclides Rule, all community public water supplies were required to sample quarterly for radionuclides beginning January 2007 - December 2007. Your public water supply completed sampling by the scheduled deadline; however, during an audit of the Mississippi State Department of Health Radiological Health Laboratory, the Environmental Protection Agency (EPA) suspended analyses and reporting of radiological compliance samples and results until further notice.

Although this was not the result of inaction by the public water supply, MSDH was required to issue a violation. The Bureau of Public Water Supply is taking action to resolve this issue as quickly as possible. If you have any questions, please contact Melissa Parker, Deputy Director, Bureau of Public Water Supply, at 601.576.7518.

The Liberty Road Trailer Park works around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

BUREAU OF PUBLIC WATER SUPPLY

CALENDAR YEAR 2008 CONSUMER CONFIDENCE REPORT CERTIFICATION FORM

LIBERTY ROAD TRAILER PARK
Public Water Supply Name

0550050
List PWS ID #s for all Water Systems Covered by this CCR

The Federal Safe Drinking Water Act requires each community public water system to develop and distribute a consumer confidence report (CCR) to its customers each year.

Please Answer the Following Questions Regarding the Consumer Confidence Report

Customers were informed of availability of CCR by: (Attach copy of publication, water bill or other)

- Advertisement in local paper
On water bills
Other Posted Within Trailer Park Office

Date customers were informed: 6/26/09

CCR was distributed by mail or other direct delivery. Specify other direct delivery methods:

Date Mailed/Distributed: 6/26/09

CCR was published in local newspaper. (Attach copy of published CCR or proof of publication)

Name of Newspaper: n/a

Date Published: / /

CCR was posted in public places. (Attach list of locations) Liberty Road Trailer Park

Date Posted: 6/26/09
2 Panter Circle

2008 CCR Contact Information

Date: 7/10/09

Time: _____

PWSID: 550050

System Name: Liberty Rd

~~Spoke w/ Tammy Linton
479-445-3732 (cell)
w/CRG
said she faxed and email
Liberty Rd to me 7/1/09.
She is going to get Liberty Rd
to fax again today, 7/10/09
and also put in mail.~~

Lead/Copper Language

MSDH Message re: Radiological Lab

MRDL Violation

Chlorine Residual (MRDL) RAA

Other Violation(s) _____

Will correct report & mail copy marked "corrected copy" to MSDH.

Will notify customers of availability of corrected report on next monthly bill.

No CCR -
Certification need
+ Results Not CCR

Spoke with _____
(Operator, Owner, Secretary)

Reggie Oliver
Oliver 650@BellSouth.net
Phone 601-590-0046
5/50

9/9/09 11:23 601 590-0046
Reggie Oliver stated that
Pural Water will do corrected copy
of CCR. He will check on the status
and get back with us.
