### BUREAU OF PUBLIC WATER SUPPLY

### CALENDAR YEAR 2010 CONSUMER CONFIDENCE REPORT CERTIFICATION FORM

Town of Brooksville  
Public Water Supply Name

052001 520001  
List PWS ID#s for all Water Systems Covered by this CCR

The Federal Safe Drinking Water Act requires each *community* public water system to develop and distribute a consumer confidence report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed to the customers, published in a newspaper of local circulation, or provided to the customers upon request.

**Please Answer the Following Questions Regarding the Consumer Confidence Report**

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

- Advertisement in local paper
- On water bills
- Other \_\_\_\_\_

Date customers were informed: 06/23/2011

CCR was distributed by mail or other direct delivery. Specify other direct delivery methods:

Date Mailed/Distributed:  / /

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: The Macon Beacon

Date Published: 06/23/2011

CCR was posted in public places. *(Attach list of locations)*

Date Posted:  / /

CCR was posted on a publicly accessible internet site at the address: www. \_\_\_\_\_

#### **CERTIFICATION**

I hereby certify that a consumer confidence report (CCR) has been distributed to the customers of this public water system in the form and manner identified above. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

Jammie Holmes, Mayor  
Name/Title (President, Mayor, Owner, etc.)

06/29/11  
Date

Mail Completed Form to: Bureau of Public Water Supply/P.O. Box 1700/Jackson, MS 39215  
Phone: 601-576-7518

**Proof of Publication**

THE STATE OF MISSISSIPPI, NOXUBEE COUNTY,  
IN CHANCERY COURT.

BEFORE ME, in and for said county, this day personally  
came R. Scott Boyd, THE MACON BEACON, a newspaper  
published in the City of Macon, of said county and state, who,  
being duly sworn, deposes and says that the publication of  
a certain notice, a true copy of which is hereto affixed, has  
been made for \_\_\_\_\_ weeks consecutively, to wit:

In Volume 163 Number 8 Dated June 23, 2011  
In Volume \_\_\_\_\_ Number \_\_\_\_\_ Dated \_\_\_\_\_  
In Volume \_\_\_\_\_ Number \_\_\_\_\_ Dated \_\_\_\_\_  
In Volume \_\_\_\_\_ Number \_\_\_\_\_ Dated \_\_\_\_\_  
In Volume \_\_\_\_\_ Number \_\_\_\_\_ Dated \_\_\_\_\_  
In Volume \_\_\_\_\_ Number \_\_\_\_\_ Dated \_\_\_\_\_

WITNESS my hand and seal of office, this the 23

day of June A.D. 20 11

By Janette B. Linn

Printer's Fee \$ 102.00 Proof of Publication 3.00

2011 JUN -1 AM 9:22

**Town of Brooksville 2010 Drinking Water Quality Report**

**Is my water safe?**  
Yes. In the United States, the Environmental Protection Agency (EPA) sets the drinking water health standards. Each state is responsible for monitoring its public water supply to ensure that the system has an adequate number of monitoring devices to ensure water quality is maintained.

**The 1 lead in tap water problem**  
Some people may be concerned about the possibility of lead in their tap water. Lead is a naturally occurring element that can be found in pipes, solder, and brass fittings. Lead can be particularly harmful to children. There are many ways to reduce lead in your tap water, such as flushing the pipes before drinking water from the faucet. EPA's Consumer Confidence and Data Protection Act requires water utilities to have the risk of lead in tap water assessed and reported to consumers.

**Where does my water come from?**  
The Town of Brooksville has water wells in the Brooksville and Old Brooksville Areas.

**Source water assessment and its availability**  
The source water assessment has been completed for our public water system to determine the overall susceptibility of its drinking water supply and to identify potential sources of contamination. The general susceptibility of the drinking water supply to contamination is low. A report containing detailed information on this subject is available on the website below. A report containing detailed information on how the susceptibility assessment was conducted has been furnished to our public water system and is available for viewing upon request. The words for the Town of Brooksville have received a "Good" source water rating.

**Why are there contaminants in my drinking water?**  
Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some substances. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's (EPA) Safe Drinking Water Hotline (800-452-5731).

**How can I get involved?**  
If you have any questions about this report or concerning your water utility, please feel free to contact City Hall at (863) 719-5311 or call our website at www.townofbrooksville.com. We also have a public hearing center.

The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Using water for cooking, the data presented in this table is from testing done in the calendar year of the report. The EPA's Safe Drinking Water Act requires us to monitor for certain contaminants from time to time because the concentrations of these substances do not change frequently.

**Water Quality Data Table**

Contaminant (MCL)	Units	2010	2009	2008	2007	2006	2005	Is the amount used in water treatment?
Lead (MCL)	ppb	0.01	0.01	0.01	0.01	0.01	0.01	No
Chlorine (MCL)	ppm	0.5	0.5	0.5	0.5	0.5	0.5	Yes
Chlorine Dioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes
Chlorine Trioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes
Chlorine Dioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes
Chlorine Trioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes
Chlorine Dioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes
Chlorine Trioxide (MCL)	ppm	0.05	0.05	0.05	0.05	0.05	0.05	Yes

**Is this table your only tool for water testing and information you might not be familiar with. In this table, however, individual data points are not presented. The following information is provided:**

**1. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**2. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**3. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**4. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**5. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**6. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**7. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**8. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**9. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.

**10. The number of samples collected for each contaminant in each year.** The number of samples collected for each contaminant in each year is shown in the table. The number of samples collected for each contaminant in each year is shown in the table.
