To comply with the "Provision governing Provision of Community Water Supplies" the PRWSO - REGWAY 43 is required to report certain results pertaining to the location of our water system. The number of months in the previous calendar year that average fluoride sample results were within the optimal range of 0.7-1.3 ppm was 10. The percentage of fluoride samples collected in the previous calendar year that was within the optimal range of 0.7-1.3 ppm was 84%.

The 2010 Consumer Confidence Report can be mailed upon request by contacting PRWSO or can viewed at www.therecs.ms
