BUREAU OF PUBLIC WATER SUPPLY

CALENDAR YEAR 2011 CONSUMER CONFIDENCE REPORT
CERTIFICATION FORMHighpoint Water Association
Public Water Supply Name# 0800011
List PWS ID #s for all Water Systems Covered by this CCR

The Federal Safe Drinking Water Act requires each *community* public water system to develop and distribute a consumer confidence report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed to the customers, published in a newspaper of local circulation, or provided to the customers upon request.

Please Answer the Following Questions Regarding the Consumer Confidence Report

- Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*
- Advertisement in local paper
 On water bills
 Other _____

Date customers were informed: 6/20/12

- CCR was distributed by mail or other direct delivery. Specify other direct delivery methods:
Date Mailed/Distributed: 6/20/12 No mail outs printed in paper with CCR
- CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*
Name of Newspaper: Winston County Journal
Date Published: 6/20/12
- CCR was posted in public places. *(Attach list of locations)*
Date Posted: / /
- CCR was posted on a publicly accessible internet site at the address: www. _____

CERTIFICATION

I hereby certify that a consumer confidence report (CCR) has been distributed to the customers of this public water system in the form and manner identified above. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

Joyce Hull Secretary
Name/Title (President, Mayor, Owner, etc.)

Annual Drinking Water Quality Report
 Highpoint Water Association
 PWS ID: 080011
 June 2011

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is from three wells tapping from the Lower Wilcox aquifer:

Well #1 Location
 800011701 Approximately 3 miles northwest of Louisville on highway 15
 800011532 Approximately 3 miles northwest of Louisville on highway 15
 800011523 Approximately 4 miles northwest of Louisville on Goss Road

Our source water assessment has been completed and rated as moderate. Copies of this assessment will be available at our office. I'm pleased to report that our drinking water meets all federal and state requirements.

If you have any questions about this report or concerning your water utility, please contact Jerry Pearson at 662-773-3282. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the last Thursday of each quarter at 7:30 p.m. at Mrs. Joyce Huff's home at 4350 Highway 15 North, Louisville, MS 39329.

Highpoint Water Association routinely monitors for constituents in your drinking water according to Federal and State laws. This table shows the results of our monitoring for the period of January 1st to December 31st, 2010. As water travels over the land or underground, it can pick up substances or contaminants such as microbes, inorganic and organic chemicals, and radioactive substances. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily pose a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Non-Detects (ND) - laboratory analysis indicates that the constituent is not present.

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Treatment Technique (TT) - A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

Maximum Contaminant Level - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal - The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants does not change frequently. Some of the data though representative of the water quality, may be more than one year old.

Contaminant	Volume (T)	Date Collected	Level Detected	Range of values in all samples during MCLG	Unit	MCL (ppm)	MCL (mg/l)	Health Source of Contamination
Microbiological Contaminants								
1 Total Coliform Bacteria	X	2011			CFU	0	0	presence of coliform bacteria in 10 of 100 samples
Radioactive Contaminants								
4 Radium-226	X	2011	1.4	No Range	PCU	0	0	50 Bq/L of natural and man-made deposits
5 Radium-228	X	2011	ND	No Range	PCU	0	0	15 Bq/L of natural deposits
Inorganic Contaminants								
7 Arsenic	X	2011	0.0605	0	ppm	0	0.05ppm	Discharge from petroleum refineries, fire retardants, research, electronics, solar
8 Nitrate	X	2011	1.0091	0	ppm	10	10	Excess of natural deposits, runoff from fertilizers, manure, and other sources
10 Boron	X	2011	0.02	0	ppm	2	2	Discharge from natural deposits and coal-burning facilities
11 Beryllium	X	2011	10.0003	0	ppm	4	0.0003ppm	Discharge from metal refineries and coal-burning facilities
12 Cadmium	X	2011	0.0005	0	ppm	5	0.0005ppm	Common of processed by-products, runoff of natural deposits, discharge from metal refineries and other sources

13 Chromium	X	2011	0.00192	0	ppm	100	0.10ppm	Discharge from steel and pulp mills, erosion of natural deposits	
14 Copper	X	2011	0.05	0	ppm	1.3	1.3	Corrosion of household plumbing systems, erosion of natural deposits, leaching from soil and fertilizers	
15 Cyanide	X	2011	0.015	0	ppm	200	0.200ppm	Discharge from steel/metal refineries, discharge from plastic and fertilizer factories	
16 Fluoride	X	2011	0.01	0	ppm	4	4	Excess of natural deposits, water additive which penetrates string wells, discharge from fertilizer and aluminum facilities	
17 Lead	X	2011	0.001	0	ppm	0	0	0.015	Emission of household plumbing systems, erosion of natural deposits
18 Mercury (inorganic)	X	2011	0.0006	0	ppm	0	0.0003ppm	Excess of natural deposits, discharge from refineries and intensive runoff from landfills, runoff from stripmining	
20 Nitrate (as Nitrogen)	X	2011	0.0660	0	ppm		10ppm	Leach from fertilizer use, leaching from septic tanks, sewage, erosion of natural deposits	
21 Nitrite (as Nitrogen)	X	2011	0.0020	0	ppm		1ppm	Leach from fertilizer use, leaching from septic tanks, sewage, erosion of natural deposits	
22 Nitrate Nitrate (as Nitrogen)	X	2011	0.150	0	ppm		10ppm		
23 Selenium	X	2011	0.00050	0	ppm	50	0.0005ppm	Discharge from petroleum refineries and metal refineries, erosion of natural deposits, discharge from mines	
25 Thiocyanate	X	2011	0.0006	0	ppm	50	0.0006ppm	Leaching from ore processing sites, discharge from electronic glass, and drug facilities	

Disinfection By-Products

27 Total Trihalomethanes	X	2011	0.02633	0	ppm		0.08ppm	By-product of drinking water chlorination
--------------------------	---	------	---------	---	-----	--	---------	---

Disinfectants & Disinfection By Products

Chlorine (excl. hypochlorite)	X	2011	0.8	High 1.0 Low 1.0	ppm	1	1	Water additive used to control microbes
-------------------------------	---	------	-----	------------------	-----	---	---	---

* Most recent test results available.

As you can see by the table, our system had no violations. We are proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected; however, they are not above the level considered unsafe.

All sources of drinking water are subject to potential contamination by substances that are naturally occurring or man-made. These substances can be microbes, inorganic or organic chemicals and radioactive substances. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

A message from MSDH concerning radiological sampling

In accordance with the Radionuclides Rule all community public water suppliers were required to sample quarterly for radionuclides beginning January 2007 - December 2007. Your public water supply completed sampling by the scheduled deadline; however during an audit of the Mississippi State Department of Health Radiological Health Laboratory, the Environmental Protection Agency (EPA) suspended analyses and reporting of radiological compliance samples and results until further notice. Although this was not the result of action by the public water supply, MSDH was required to issue a violation. This is to notify you that as of this date, your water system has not completed monitoring requirements. The Bureau of Public Water Supply has taken action to ensure that your water system be returned to compliance by March 31, 2013. If you have any question, please contact Melissa Parker, Deputy Director, Bureau of Public Water Supply at 601-576-7518.

During a sanitary survey conducted on 6/17/2010, the Mississippi State Department of Health cited the following significant deficiency: Inadequate internal cleaning/maintenance of storage tanks. Corrective action: This system is currently under a Sateral Compliance Agreement with the MSDH to correct this deficiency by 8/31/2012.

There will be no mail outs of the CCR as this publication has all of the information in it.

Please call our office if you have questions. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

PROOF OF PUBLICATION

THE STATE OF MISSISSIPPI COUNTY WINSTON

Before the undersigned authority of said county and state personally appeared Chasatie Fisher, County of Winston, State of Mississippi, Winston County Journal, duly sworn, both depose and say that the publication of the notice hereto affixed has been made in said newspaper for 1 consecutive week(s), to-wit:

Vol. 119, No. 25, on the 20 day of June, 2012
 Vol. _____, No. _____, on the _____ day of _____, 2012
 Vol. _____, No. _____, on the _____ day of _____, 2012
 Vol. _____, No. _____, on the _____ day of _____, 2012
 Vol. _____, No. _____, on the _____ day of _____, 2012
 Vol. _____, No. _____, on the _____ day of _____, 2012

Sworn to and subscribed to this the 21 day of June 2012
me the undersigned Notary Public of said County and State.
