BUREAU OF PUBLIC WATER SUPPLY

CALENDAR YEAR 2011 CONSUMER CONFIDENCE REPORT CERTIFICATION FORM

Siloam Water Association
Public Water Supply Name

130016 130015 130004 130017
130025 130021 130024 130023
List PWS ID #s for all Water Systems Covered by this CCR

The Federal Safe Drinking Water Act requires each ***community*** public water system to develop and distribute a consumer confidence report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed to the customers, published in a newspaper of local circulation, or provided to the customers upon request.

Please Answer the Following Questions Regarding the Consumer Confidence Report

☒ Customers were informed of availability of CCR by: ***(Attach copy of publication, water bill or other)***

- ☒ Advertisement in local paper
- ☒ On water bills
- ☐ Other_____

Date customers were informed: 6/30/12

☐ CCR was distributed by mail or other direct delivery. Specify other direct delivery methods:

Date Mailed/Distributed: / /

☒ CCR was published in local newspaper. ***(Attach copy of published CCR or proof of publication)***

Name of Newspaper: Daily Times Leader

Date Published: 6/29/12

☐ CCR was posted in public places. ***(Attach list of locations)***

Date Posted: / /

☐ CCR was posted on a publicly accessible internet site at the address: www._____

CERTIFICATION

I hereby certify that a consumer confidence report (CCR) has been distributed to the customers of this public water system in the form and manner identified above. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

Mary L. Williams
Name/Title (President, Mayor, Owner, etc.)

Mail Completed Form to: Bureau of Public Water Supply/P.O. Box 1700/Jackson, MS 39215
Phone: 601-576-7518

2011 Drinking Water Quality Report

Is my water safe?

Last year, as in years past, your tap water met all U.S. Environment Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. This report is a snapshot of last years water quality. Included are details about where your water comes from, what it contains and how it compares to standards set by regulatory agencies. We are committed to providing the best information about the quality of your drinking water.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk for infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by microbial contaminants are available from the Safe Drinking Water Hotline at 1-800-426-4791.

Where does my water come from?

Our water comes from 8 different wells that draw from the Eutaw, Gordo and McShan Aquifers.

Source water assessment and its availability:

Our source water assessment is available on request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791

How can I get involved?

Our board members meet the 2nd Monday of every month at 5:00 pm at the Siloam Water Office. Our annual meeting is the 1st Monday in April. The exact time and place will be printed on your water bill. This is a very important meeting and we encourage all of our members to attend.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Siloam Water Association is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have you water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available form the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead. The Mississippi State Department of Health Public Health Laboratory offers lead testing for $10.00 per sample. Please contact 601-576-7582 if you wish to have your water tested.

*******A Message From MSDH Concerning Radiological Sampling*******

In accordance with the Radionuclides Rule, all community public water supplies were required to sample quarterly for radionuclides beginning January 2007- December 2007. Your public water supply completed sampling by the scheduled deadline; however, during an audit of the Mississippi State Department of Health Radiological Health Laboratory, the Environmental Protection Agency (EPA) suspended analyses and reporting of radiological compliance samples and results until further notice. Although this was not the result of inaction by the public water supply, MSDH was required to issue a violation. This is to notify you that as of this date, your water system has not completed the monitoring requirements. The Bureau of Public Water Supply has taken action to ensure that your water system be returned to compliance by March 31, 2013. If you have any questions, please contact Melissa Parker, Deputy Director, Bureau of Public Water Supply, at 601-576-7518.

Monitoring and Reporting of Compliance Data Violations
Significant Deficiencies

System Name and ID: Una-130023, Griffith-130015, Pine Bluff-130017

During a sanitary survey conducted on 7/28/2011, the Mississippi State Department of Health cited the following significant deficiencies:
Inadequate internal cleaning/maintenance of storage tanks
Corrective actions: These systems are currently under a Bilateral Compliance Agreement with the MSDH to correct this deficiency by 8/22/2012

Inorganic and Radioactive Contaminants

Term	Definition
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
MCL-Maximum Contaminant Level	The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology
MCLG-Maximum Contaminant Level Goal	The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
TT-Treatment Technique	A required process intended to reduce the level of a contaminant in drinking water.
AL-Action Level	The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
MRDLG-Maximum Residual Disinfection Level Goal	The level of a drinking water disinfectant below which there is no known or expected risk to health. MCLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
MRDL-Maximum Residual Disinfection Level	The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

While News Corp.'s board unanimously approved the split, it will need to review a more formal proposal on the matter. The deal is also subject to shareholder and regulatory approvals. News Corp. said it plans to hold a meeting of its shareholders sometime in 2013. The entire process may take a year to finalize.

The Murdoch family, which controls nearly 40 percent of the voting shares in News Corp., shareholders with the current market value for News Corp. as a whole of about $54 billion.

Murdoch emphasized on nearly 60 years ago with a single newspaper operating out of Adelaide," Murdoch said, referring to the Australian newspaper that he inherited from his father that became the foundation for News Corp.

The split of News Corp. is a symbolic turning point for Murdoch, 81. Through the years, Murdoch maintained a fondness for newspapers even

receive one share of common stock in each new company foreach share of News Corp.

foreign corrupt practices Act, which punishes companies that have bribed officials abroad.

phones and bribed public officials in Britain in exclusive information.

'Any Man'

continued from page 3

myself. (Old Man where you going...where you going... GONE)

I got a New Man and his name is JESUS.

My friend, now my sister in Christ whom I love dearly, has shared with me her greatest love, the love of Jesus Christ. The love that is available to Any Man. (I thank God "It don't stop" for I am "just getting started").

Lord, I thank you for Any Man. He is created in your image. He gives you thanks and praise for the love, grace, and mercy that you have bestowed on him. You mold him daily into what and who you want him to be in you. He says yes to your will and your way. For you see, Any Man, has learned to read your word and do just what it has to say. "Any Man" is a man of God, a man of valor, a man after God's own heart. For Any Man, God is the source of his strength for he now lives in the power of God's might. (AMEN) Any Man... the new man...is the sweetest man I know for his heart is fixed on and in the Lord.... Any Man...Is You ...Any Man...Is Me. Any Man lives in the "overflow". He drinks from the saucer of the cup mentioned in Psalms 23. (Yep, Read)

Any Man...(Thank you, my sister in Christ...through the love of God)...has been blessed to touch someone's heart along the way.

My Place...I'm Back

Oh, enemy you must know that I am on the edge of my overflow.

For you are truly working hard to keep me from saying no.

For you also know that the end is close at hand.

You are doing all you can to keep me from entering the promise land.

Stand on guard. Stay away, for the word of God, I will use as my sword.

For I have hidden it in my heart because it was giving by the Lord.

Lord, I stand before you waiting to know your will,

For I say no to the spirit that came to kill.

Lord, I touch and agree,

I will live in liberty with thee.

It has been a minute, it has been a journey

It has been what it was and by the Grace of God, It is now what it is!

A journey to and fro... where no soul would knowingly choose to go...

Yet I did...
I believed...
I relived...
I accepted...
I denied...
I was rejected...
But now...
I don't,...
I have faith...
I am alive...
I am redeemed...
I am victory...
I am who I am (Any Man) in Christ as the Holy Spirit keeps me...
