

MISSISSIPPI STATE DEPARTMENT OF HEALTH
BUREAU OF PUBLIC WATER SUPPLY
CCR CERTIFICATION
CALENDAR YEAR 2013

Young's Water + Sewer District, Inc
Public Water Supply Name

PWS - MS0220064 + PWS MS0220065
List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community public water system to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must mail, fax or email a copy of the CCR and Certification to MSDH. Please check all boxes that apply.**

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

- Advertisement in local paper (attach copy of advertisement)
- On water bills (attach copy of bill)
- Email message (MUST Email the message to the address below)
- Other _____

Date(s) customers were informed: ___ / ___ / ___ , ___ / ___ / ___ , ___ / ___ / ___

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: ___ / ___ / ___

CCR was distributed by Email (MUST Email MSDH a copy) Date Emailed: ___ / ___ / ___

As a URL (Provide URL _____)

As an attachment

As text within the body of the email message

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: The Coffeeville Courier

Date Published: 5/29/2014

CCR was posted in public places. *(Attach list of locations)* Date Posted: ___ / ___ / ___

CCR was posted on a publicly accessible internet site at the following address (**DIRECT URL REQUIRED**):

CERTIFICATION

I hereby certify that the 2013 Consumer Confidence Report (CCR) has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

Debra J. Barker, Pres
Name/Title (President, Mayor, Owner, etc.)

6-6-2014
Date

Deliver or send via U.S. Postal Service:
Bureau of Public Water Supply
P.O. Box 1700
Jackson, MS 39215

May be faxed to:
(601) 576-7800

May be emailed to:

Young's Water & Sewer District Inc. -Wells 1 & 2 2013 Consumer Confidence Report

2014 WATER SUPPLY
2014 APR 11 AM 10:24

The Table Below lists the contaminants in you drinking water that were detected in 2013: EPA or MSDH require monitoring for certain contaminants less than once a year since concentration of these contaminants do not change frequently. The dates will be noted.

Well 1- Dividing Ridge PWS0220064 *2013 Water Quality Report

Young's Water & Sewer Dist. Inc. met all State & Federal requirements for 2013.	Contaminants:	MCLG or	TT or	Your	Range	Sample	Violation	Typical sources
		MRDLG	MDRL	Water	Low/High	Date		
[There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants]								
Your water comes from two deep wells located in the Middle & Lower Wilcox Aquifers.	Chlorine [0999] [ppm]	4	4	0.9	0.52 - 1.00	2013	No	Water additive used to control microbes
Source Water Assessment results will be on file for veiwng. Office Phone-662.628.1035.	ITHMS [Total Trihalomethanes] [ppb]	N/A	80	12.1	12.1 - 12.1	2011	No	By-product of drinking water disinfection
	Haloacetic Acids [HAA5] [ppb]	N/A	60	6	6 6	2011	No	By-product of drinking water chlorination
Inorganic Contaminants								
	Barium [ppm]	2	2	0.0655	0.0655 0.0655	2011	No	Discharge of drilling wastes, Discharge from metal refineries; Erosion of natural deposits
	Cyanide [as free CN] [ppb]	200	200	0.02175	0.2175 0.2175	2011	No	Discharge from plastic & fertilizer factories; Discharge from steel/metal factories
		MCLG	AL	Your	# Samples	Sample	Exceeds	
				Water	Exceeding AL	Date	AL	Typical sources
	Copper 90th-Action Level at consumers taps [mg/L]	1.3	1.3	0.4	0	2011	No	Corrosion of household plumbing systems; Erosion of natural deposits.

Well 2- Clear Springs PWS0220065 *2013 Water Quality Report

Young's Water & Sewer Dist. Inc. met all State & Federal requirements for 2013.	Contaminants:	MCLG or	TT or	Your	Range	Sample	Violation	Typical sources
		MRDLG	MDRL	Water	Low/High	Date		
[There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants]								
	chlorine [0999] [ppm]	4	4	0.7	0.40 1.00	2013	No	Water additive used to control microbes
	ITHMS [Total Trihalomethanes] [ppb]	NA	80	42	42 42	2011	No	By-product of drinking water disinfection
	Haloacetic Acids [HAA5] [ppb]	NA	60	18	18 18	2011	No	By-product of drinking water chlorination
Inorganic Contaminants								
	Barium [ppm]	2	2	0.013	0.013 0.013	2011	No	Discharge of drilling wastes, Discharge from metal refineries; Erosion of natural deposits
	1025 Fluoride [ppm]	4	4	0.135	0.135 0.135	2011	No	Erosion of natural deposits; Water additives which promotes strong teeth; Discharge from fertilizer & aluminum factories.
	Cyanide [as free CN] [ppm]	200	200	0.06135	34 34	2011	No	Discharge from plastic & fertilizer factories; Discharge from steel/metal factories
		MCLG	AL	Your	# Samples	Sample	Exceeds	
				Water	Exceeding AL	Date	AL	Typical sources
	Lead 90th - action level [at consumer taps mg/L]	0.015	0.015	0.006	0	2011	No	Corrosion of household plumbing systems; Erosion of natural deposits.

Additional information on Lead in Your Water:

If present, elevated levels of lead can cause serious health problems, especially for pregnant women & young children. Lead in drinking water is primarily from materials & components associated with service lines & home plumbing. Young's W/s Dist, Inc. is responsible for providing high quality drinking water, but cannot control the variety of material used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing you tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may have your water tested. Information on lead in drinking water, testing methods, & steps you can take to minimize exposure is available from the Safe Drinking Hotline or at: <http://www.epa.gov/safewater/lead> The Mississippi Dept. of Health, Public Health Laboratory offers testing for a small fee. Please Contact 601-576-7582 if you wish to have your water tested.

Definitions of units in table:
AL-Action Level- *The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which water system must follow
MCL-Maximum Contaminant Level-*Highest level of contaminant in drinking water. Set as close to MCLGs as feasible using the best treatment technology.
MCLG- Maximum Contaminant Level Goal. *The level of a contaminant in drinking water below which there is no known or expected risk to health.
MRDLG-Maximum residual disinfection level goal-*Level of a drinking disinfectant below which there is no known or expected risk to health.
MRDL-Maximum Residual Disinfectant Level-*Highest level of a disinfectant allowed in drinking water. Convincing evidence that addition that addition of a disinfectant is necessary for control of microbial contaminants.
TT- Treatment Technique: Required process intended to reduce the level of cantaminant in drinking water.

22/65, 22/64

	ppb-parts per billion, or micrograms per liter [ug/L], ppm- parts per million, or milligrams per liter [mg/L]. NA-Not Applicable. ND- Not Detected.						
Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of contaminants. The presents of these do not necessarily indicate that water poses a health risk. More information about contaminants and potential heallh effects can be obtained by calling Enviornmental Protection Agency [EPA] Safe Drinking Water Hotline [800-426-4791].							
Sources of drinking water [both tap & bottled water] include rivers, lakes, streams, ponds, reservoirs, springs, & wells. As water travels over the surface of land or through the ground, it dis-							
solves natuararly occuring minerals & in some cases, radioactive material, & can pick up substances resulting from the presents of animals or human activity; microbial contaminants, such as							
viruses & bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, & wildlife; inorganic contaminants such as salts & metals, can be natural occuring							
or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil & gas production, mining, or farming; pesticides & herbicides, may come from a variety of sources -							
[agriculture, urban stormwater runoff & residential uses]; Organic chemical contaminants including synthetic & volatile organic chemicals -[by-products of industrial processes & petroleum pro-							
duction, -gas stations, urban stormwater runoff & septic systems]; & Radioactive contaminants can be naturally occuring or results of-[oil & gas production & mining activities]. To ensure that							
tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food & Drug Administration [FDA] regulations							
establish limits for contaminants in bottled water which must provide the same protection for public health.							
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons - having cancer, undergoing chemotherapy, or organ transplant							
recipients, people with HIV/AIDS or other immune disorders, some elderly or infants can br at risk from infections. These people should seek advise about drinking water from their Health Care							
Providers. EPA /Centers for Disease Control [CDC] guidelines on appropriate means to lessen the risk of infection by Cryptosporidium & other microbial contaminants are available from the Safe							
Drinking Water Hotline [800-426-4791].							
Young's Water & Sewer Dist.Inc. Board of Directors meet the second Monday each month at 6PM at office. For information Call Sidney Parker, President,							
at 662-628-5475 or 662-628-1035.

THE STATE OF MISSISSIPPI

Paste Copy of Legal
Notice Here

YALOBUSHA COUNTY

Before me, A Notary Public of Yalobusha County, this day came Sarah H. Williams, who states on oath that she is the Business Manager of THE COFFEEVILLE COURIER, a public newspaper published in the Town of Coffeeville and having a general circulation in the said County and State, and makes oath further that the advertisement, of which a copy as printed is annexed hereto, was published in said newspaper for 1 week in its issued numbered and dated as follows, to-wit:

Volume 104 Number 22 Dated the 29 day of May, 2014

Affiant further states that she has examined the foregoing 1 issue of said newspaper, and that the attached notice appeared in each of said issue as aforesaid of said newspaper.

Sarah H. Williams

Business Manager

THE COFFEEVILLE COURIER

Sworn to and subscribed before me, this 30th day of May, 2014.

Peggy Bennett

Notary Public, Yalobusha County, Mississippi

<u>70" 1 time @ \$3.50</u>	<u>\$245.00</u>
Proof of Publication	<u>3.00</u>

Total \$248.00

My commission expires 10-14-17.

Newsletter: Notice of 2014 Annual Meeting
Young's Water & Sewer District, Inc.
Monday July 28, 2014 7PM
Magnum Hunt Club **Yalobusha County Road 147

2014 JUN 11 AM 10: 24

Year End Reports: *2014-15 Purposed Budget; *2013-14 Financial Report; *Well reports

One Board Member will be elected

To vote you must have a meter in your name. One vote per member.

**If you would like to speak at Annual Meeting. Please call office & get on agenda

Phone/Fax 662-628-1035

Come meet with your Water Board on July 28, 7PM. Be informed.

Young's Water lost our Board Member - Francis W. Havens-September 2013.

He will be missed. He was a loyal & dedicated friend & Board Member.

Board of Directors: Sidney Parker, Pres;

Barbara Magness, VP Brenda Havens, Dir

Elizabeth Alexander, Dir Gaylon Gray, Dir

Young's W/S District, Inc meets the 2nd Monday every month 6PM at office.

** Water Bill payments are due by the 10th each month- [10% late fee

on payment made after the 10th] To avoid cutoff pay by the 24th.
