CERTIFICATION

Consumer Confidence Report (CCR)

Hide-A-Way Water System

Public Water Supply Name

550013

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community public water system to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must mail, fax or email a copy of the CCR and Certification to MSDH. Please check all boxes that apply.**

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

Advertisement in local paper (attach copy of advertisement)

On water bills (attach copy of bill)

Email message (MUST Email the message to the address below)

Other Hide-A-Way Lake Echoes (June 2017 edition of our monthly newsletter) - bills with newsletters was mailed on 5/30/17

Date(s) customers were informed: 5/30/2017 / /

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: _____ / _____ / _____

CCR was distributed by Email (MUST Email MSDH a copy)

Date Emailed: _____ / _____ / _____

As a URL (Provide URL _____)

As an attachment

As text within the body of the email message

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: _____

Date Published: _____ / _____ / _____

CCR was posted in public places. *(Attach list of locations)*

Date Posted: 5/10/2017

CCR was posted on a publicly accessible internet site at the following address **(DIRECT URL REQUIRED)**:

http://www.hazelmms.com/F/CCR16.pdf (posted on 5/10/2017)

CERTIFICATION

I hereby certify that the Consumer Confidence Report (CCR) has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply

601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from three (3) wells that draw ground water from the **Miocene Series Aquifer**.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the **second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club House.** We encourage all customers who have any concerns or questions to meet with us. Our association conducts its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. This is a very important meeting in which all customers are encouraged to attend.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address: <http://www.healthyns.com>. Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data though representative of the water quality may be more than one year old.

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hide-A-Way Water System is responsible for providing high-quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-7582 if you wish to have your water tested.

Terms and Abbreviations used in the Table

MCLG: *Maximum Contaminant Level Goal* - is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MCL: *Maximum Contaminant Level* - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
AL: *Action Level* - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
ND: *Non-detect.*

TEST RESULTS						
Contaminant	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
Inorganic Contaminants						
Antimony (ppm) Well #2 Well #3	0.006 0.006	0.006 0.006	0.0005 0.0005	03/30/16 03/30/16	NO NO	Discharge from petroleum refineries; fire retardants; ceramics; electronics; solder.
Arsenic (ppm) Well #2 Well #3	N/A	0.010 0.010	0.0005 0.0005	03/30/16 03/30/16	NO NO	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes.
Barium (ppm) Well #2 Well #3	2 2	2 2	0.0059 0.0057	03/30/16 03/30/16	NO NO	Discharge of drilling waste; discharge from metal refineries; erosion of natural deposits.
Beryllium (ppm) Well #2 Well #3	0.004 0.004	0.004 0.004	0.0005 0.0005	03/30/16 03/30/16	NO NO	Discharge from metal refineries and coal-burning factories; discharge from electrical, aerospace, and defense industries.
Cadmium (ppm) Well #2 Well #3	0.005 0.005	0.005 0.005	0.0005 0.0005	03/30/16 03/30/16	NO NO	Corrosion of galvanized pipes; erosion of natural deposits; discharge from metal refineries; runoff from waste batteries and paints.
Chromium (ppm) Well #2 Well #3	0.1 0.1	0.1 0.1	0.0017 0.0019	03/30/16 03/30/16	NO NO	Discharge from steel and pulp mills; erosion of natural deposits.
Copper (mg/l)	1.3	AL=1.3	0.1	01/01/12-12/31/14 (Triennial)	NO	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives. 12 samples collected.
Cyanide (ppm) Well #2 Well #3	0.2 0.2	.2 .2	0.015 0.015	06/15/15 06/15/15	NO NO	Discharge from steel/metal factories; discharge from plastic and fertilizer factories.
Fluoride (mg/l) Well #2 Well #3	4 4	4 4	0.302 0.241	03/30/16 03/30/16	NO NO	No fluoride is added to water system.
Haloacetic Acids (ppb) (HAA5) Well #2 and Well #3	N/A	60.0	11.0	08/09/16	NO	By-product of drinking water disinfection.
Lead (mg/l)	.015	AL = .015	0.001	01/01/12-12/31/14 (Triennial)	NO	Corrosion of household plumbing systems, erosion of natural deposits. 12 samples collected.

Selenium (ppm) Well #2 Well #3	0.05 0.05	0.05 0.05	0.0025 0.0025	03/30/16 03/30/16	NO NO	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines.
Thallium (ppm) Well #2 Well #3	0.0005 0.0005	0.002 0.002	0.0005 0.0005	03/30/16 03/30/16	NO NO	Leaching from ore-processing sites; discharge from electronics, glass, and drug factories.
TTHM (Total trihalomethanes) (ppb) Well #2 and Well #3	N/A	80.0	29.1	08/09/16	NO	By-product of drinking water disinfection.
Disinfection By-Products						
Chlorine (mg/l)	4.0	4.0	1.00	01/01/16-12/31/16	NO	Water additive used to control microbes. MRDL range 0.40 MG/L to 1.50 MG/L.
Microbiological Contaminants	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
# Total Coliform	0	>1	ND	Monthly	NO	Naturally present in the environment

Units Description: (ppm): parts per million, or milligrams per liter (mg/l), (ppb): parts per billion, or micrograms per liter (µg/l), (pCi/l): picocuries per liter (a measure of radioactivity), % of monthly positive samples: Percent of samples taken monthly that were positive

A Board Meeting was held on Wednesday, May 10, 2017. The next Board Meeting is Wednesday, June 14, 2017 at 6:30 pm.

Architectural/Variations - Jim Wells
For April 2017, the number of houses to date is 963. The architectural committee approved the following: (1) driveway and (1) fence (1 wooden privacy).
Finance Committee Report - Tom Gihlterra
The Treasurer's Report was read. It had a grand total of \$603,372.86.

Lake Quality - Mark Herring

Water samples were collected from four locations on May 1, 2017. Results were mixed: one sample (Inlet) was TNTC; one was inconclusive; and two were within the Mississippi standard level for recreational waters. Rainfall for the month of April 2017 was measured at 3.63 inches which was 1.45 inches below the 30 year April average of 5.08 inches. Rainfall-to-date was 24.45 inches which was 2.51 inches above the 30 year-to-date average of 21.94 inches. Currently in works are phase #3 activities of our Lake Quality Management Plan. This phase involves the monthly addition of pond fertilizer to enhance the production of microscopic plant life which is the base of the aquatic food chain. During this time, we need to monitor the effect of water flow on the production and concentration of plant life and the longevity of nutrients in the water.

The orientation map of artificial fishing habitats is under revision to update GPS coordinates and clarify information on structures installed at locations throughout the lake.

We have been working with a lake management company since last fall to improve the quality of our lake's water, reduce the aquatic weeds, and improve the fishery for all. Since then they have placed lime and fertilizer in the lake as well as stock it with grass eating carp and forage fish.

In the past we have drained 40% - 50% of the volume of lake when we lower it. Of course, that will also drain 40% - 50% of the products in solution in the lake. The management company has recommended that we not drain the lake as we have done in the past. First, it will interfere with the processes that they have begun so that we can evaluate the results. Secondly, the consequence of lowering the lake is estimated to be that we will incur a large expense to reestablish the needed concentration of lime in the lake.

The Lake Quality Committee and Board of Director agrees with their recommendation and the lake will not be lowered this next January.

Long Range Planning - Elizabeth Ennis
In preparation for the upcoming fiscal year's budget (October 1, 2017 - September 30, 2018), we are currently working on the Ten Year Capital Expenditure Plan.

Social Committee - Robin Montalano
The Family Beach Bash is set for June 11th from noon to 4:00 pm. This event is free of charge. Some of the activities include kayak racing, volleyball tournaments, and Corn Hole Toss tournaments. Participants must contact the HAWL office to sign up. There will also be free snowballs and other things for your family to enjoy. Please visit HAWL's website for more details on this event.

The Social Committee has several other events planned for the remainder of the year. Upcoming events include: the Deck Party (date is TBD), the Fall Flea Market on September 9th with a rain date of September 23rd, the Halloween Party on October 28th, a Brunch, Bingo, and Boutique on November 8th, a Breakfast Buffet which includes Santa's Workshop and Marketplace on December 2nd, the Holiday Cookie Exchange on December 6th, and the New Year's Eve Party on December 31st. Be sure to mark your calendar so you don't miss out on these exciting events!

Architectural Monthly Receipt
Information as of May 15, 2017
Total homes in HAWL: 963

Active Building Permits: 14
Covenant Violations: 10

No structure shall be erected on any lot without an approved building permit in writing by the HAWL Office. ALL building permit applications must have the following:
1) Site/Plot plan showing existing and requested improvements. 2) Set of building plans to code. 3) Specification of materials. Permit requests are reviewed by the Architectural Committee on the 2nd and 4th Thursday of each month. Please ensure that all permit application requests are completed with all supporting documents attached and submitted to the HAWL Office a minimum of 24 hours before the scheduled meeting. This allows the office enough time to review and verify all paperwork in preparation of the Architectural Committee meeting. The Building Code consists of six sections: the table of contents will assist you in preparing your project/permit application request. A complete copy of the Building Code is available online at www.hawls.com or a hard copy can be picked up in the HAWL Office.

HIDE-A-WAY LAKE ECHOES

June 2017

Family Beach Bash!

Sign Up NOW for the Family Beach Bash activities!
You must call the HAWL Office (601-798-1484) to sign up for the activities. If there are not enough participants signed up in advance, then some activities may be cancelled.
The Family Beach Bash is being hosted by the HAWL Social Committee. There will be activities for all age groups and trophies will be awarded to the winning teams. Fun events for younger children will be held as well. Free snowballs and other treats will be provided for your families to enjoy.
Date: Sunday, June 11, 2017
Time: 12 pm - 4 pm
Activities: Volleyball Tournament, Kayak Races, and Corn Hole Toss
Age Groups: 7-12, 13-17, & Adults (18+) *Adult groups may include high school age if the team agrees.*

Swimming Lessons

June 12th - June 23rd
Monday-Friday
8:00 am to 8:45 am
9:00 am to 9:45 am
0 years of age and older
Tests to 5 years of age
Cost: \$100

*Classroom could change due to participation level.
*Children must be accompanied by a parent. Please call the office at 601-798-1484 for information and to sign up. (Lesson fees are non-refundable, as space is limited. Tests will be charged to the participant's owners accounts. Non-Property Owners must pay in cash, which is due before the first day of class.)

Father's Day Buffet

Sunday, June 18, 2017
11:30 am - 1:00 pm or 1:30 pm - 3:00 pm
The buffet will include:
Carved Roast Beef, Bronzed Catfish, Fried Chicken, Vegetables, Soup, Salad Bar, Desserts, and Much More!
The cost of the buffet is \$18.99 for adults, \$9.99 for children 5 - 12, and FREE for children 4 and under.
Reservations are required by June 10, 2017 and can be made by calling the HAWL Office (601) 798-1484.

HAWL Dinner Theater

It is dinner theater time again and you won't want to miss this show! Gladys Hughes directs four MS, Mississippi Senior America queens on stage to perform a delightful, laugh a minute comedy, *The Savannah Shipping Society* by Jones, Hope, and Women. Cast members for this Southern charm comedy include: Debbie Cing Bonnie Higgins, Jessalyn Leour, and Tina Schanon. Come enjoy a dinner to remember with good food and plenty of laughter.

Presented By: Picyune On Stage

Presenting: *The Savannah Shipping Society*

When four unique Southern women all need an escape from their repetitious day-to-day lives, they are drawn together by fate and an impromptu happy hour. There is Karla, a workaholic who has no idea how to get a life; Dot, who is reeling from the loss of her husband and struggling to start a new life; Marlahey, an earthy, boisterous Texan who came to Savannah wanting revenge after losing her "non-cent" husband to a twenty-three year old dental hygienist; and Jinx, the life coach for these three women, that in the end needs the most advice! This comedy covers six months of their lives.

Where: Waters Edge Restaurant
When: Friday, June 23, 2017
Saturday, June 24, 2017
Sunday, June 25, 2017

Time: **Friday & Saturday:** Doors open at 6:00 pm
Dinner served at 6:30 pm
Play begins at 8:00 pm
Sunday: Doors open and lunch begins at noon
Play begins at 2:00 pm

Cost: \$33.00 (includes entertainment, meal, tax, and gratuity)
Menu: Soup, salad, citrus baked chicken over Caribbean rice, corn on the cob, and peach cobbler.

For reservations call the HAWL Office at 601-798-1484.

Picyune On Stage Presents: Mad Hatter's Luncheon

Picyune On Stage presents *A Mad Hatter's Luncheon*. If you are young at heart, plan to join us for a fun luncheon and entertainment at Waters Edge Restaurant on Wednesday, August 9, 2017, for singing, dancing, and a fashion show featuring Ms. Mississippi Senior America 2017. These performances will take you down the rabbit hole and into the looking glass as you and your friends enjoy a delicious lunch. The menu will include: a large grilled shrimp salad topped with fried green tomatoes, paired with a cup of soup, and a decadent dessert served with coffee and tea. The cost for this event is \$29.00 per person (tax and gratuity included). Be sure to wear colorful attire and a crazy hat for a chance to be awarded prizes for the following: Best Hat, Most Imaginative Hat, Most Colorful Hat, and Largest Hat. Doors open at 11:30 am, lunch will be served at 12:00 pm, and entertainment will begin at 1:00 pm. Come one, come all because at a Mad Hatter's Luncheon, you don't have to be the "crazy"....it should bring out the inner child in everyone! Join us to have some fun!

To make reservations, HAWL Residents will need to call the Office at 601-798-1484. Non-Residents will need to call Jessica at 601-799-2937.

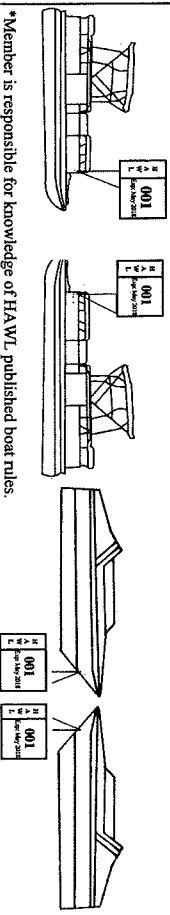

As of June 1st, orange decals are no longer valid. Any boat on the water without a current decal will be issued a security citation and must cease operation.

1. Observe all Mississippi Boating Laws with respect to safety.
2. Obey all traffic signs on the Lake.
3. Property owners are responsible for the actions of their children and guests at all times.
4. If launching boat from community launching area by the Lodge, park vehicle and trailer behind tennis courts. Avoid using Lodge parking lot if possible. Do no park vehicle in boat launching area or pavilion area. Loading/unloading only permitted. If launching at Westside Marina, do not park so as to block traffic or access to the launching ramp.
5. Docking of boats in the boat launch area, or at the launch pier in order to use adjacent facilities is prohibited.
6. Boats which are not registered with HAWL and guest boats will not be allowed on the lake at any time. Current decals must be attached in a location visible from each side of the vessel while the boat is on the water. Excluding manual powered vessels, all boats on the lake must have proof of \$300,000 minimum marine liability insurance in order to purchase a boat decal.
7. Speed Limit: 40 MPH on open lake during daylight hours and "No Wake" speed at night or during periods of limited visibility.
8. There is to be no skiing or PWC boats on the lake during nighttime, during periods of limited visibility, or when the light is flashing on the roof of the Lodge. All boats will then be limited to "No Wake" speed.
9. Do not operate any watercraft while under the influence of alcohol or drugs.
10. All boat traffic must travel in a counter-clockwise direction on the open lake.
11. Boats are not to exceed 24 feet in length. Original owners of larger boats registered prior to June 1, 1994, are exempt from this ruling.
12. All watercraft shall operate at idle speed in marked "No Wake" areas including marinas, bays, coves, and within 100 feet adjacent to the shoreline in the open lake.
13. Swimming in the vicinity of the marina launch areas shall be in the designated areas only. For safety reasons, swimmers should not be farther than 50 feet from shore in the open lake.
14. Boats anchored in open lake must be no further than 100' from shore and any swimmer from that boat must stay within 100' from shore.
15. When any motorboat, sailboat or PWC is under power, all persons riding therein shall remain within the watercraft; no person shall hang over the bow, stern or gunwales (side).
16. There shall be at least two persons in any boat which is towing a water skier, ski board, knee board, tube, or any other flotation device/vehicle; one to operate the boat and the other to face and observe the progress and safety of the person being towed. The boat operator of the towing vessel must be at least 15 years of age. The observer must be at least 10 years of age. It is mandatory that the person being towed wear a U.S. Coast Guard approved personal flotation device (PFD).
17. A tow boat must not enter into the "No Wake" area with a skier; however, the skier may swing in to the 100 foot area to drop skis. All water craft and skiers must stay 75 feet from any other watercraft or person. No boat shall follow closer than 150 feet behind a person being towed.
18. The basic requirements for all water craft defined in DEFINITIONS 1, 2 and 3, operating on HAWL waters are as follows:
 - A USCG approved personal flotation device (PFD) for each person on board.
 - Every person 12 years of age or younger is required to wear a USCG approved PFD while underway in the open lake in any watercraft defined in DEFINITIONS 1, 2, and 3, or in any canoe or kayak.
 - Red and green running lights mounted on the bow. Green to starboard (right side) and red to port (left side) and all around white light on the stern if operating at night.
 - Fire extinguisher if inboard engine or enclosed fuel compartments.
19. No motor boat shall be operated by any person who is under the age of 12 years except when accompanied by a parent, guardian, or other person 18 years of age or older.
20. At no time shall any unauthorized person move or tamper with any marker or buoy on HAWL waters.
21. Follow all safety rules for your own protection as well as others. All accidents must be reported to the HAWL office as soon as possible.
22. Citations will be issued for violations of the General Boat Rules. In all cases, after three confirmed safety violations against the same boat within a two year period, that boat will be banned from the lake for a period of one year.
23. Before launching a boat, empty bilge water and remove any vegetation from the board/trailer.
24. Trot lines, jug fishing, and fish traps are not allowed.

Mandatory Placement of HAWL Boat Decals

HAWL boat decals must be attached in a location visible from each side of the vessel while the boat is on the water. Please see the example below:

*Member is responsible for knowledge of HAWL published boat rules.

June 2017 Upcoming Events

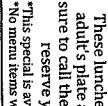

May 31st	Boat and Golf Cart Decal Deadline
June 1st	Lunch with Specials: 11 am - 2 pm
June 2nd	Lunch with Specials: 11 am - 2 pm WOW! Finally Friday: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm
June 3rd	Lunch with Specials: 11 am - 2 pm Lunch with Specials: 11 am - 2 pm
June 4th	Lunch with Specials: 11 am - 2 pm Lunch with Specials: 11 am - 2 pm WOW! Finally Friday: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm
June 5th	Family Beach Bash: 12 pm - 4 pm Swimming Lessons Begin
June 10th	Board Meeting: 6:30 pm Lunch with Specials: 11 am - 2 pm
June 11th	WOW! Finally Friday: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm
June 12th	Swimming Lessons Begin
June 14th	Board Meeting: 6:30 pm Lunch with Specials: 11 am - 2 pm
June 15th	WOW! Finally Friday: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm Father's Day Buffet
June 16th	1st seating: 11:30 am - 1 pm 2nd seating: 1:30 pm - 3 pm
June 22nd	POS Dinner Theater*
June 23rd	Doors open 6 pm, Dinner 6:30 pm, Play 8 pm POS Dinner Theater*
June 24th	Doors open 6 pm, Dinner 6:30 pm, Play 8 pm POS Dinner Theater*
June 25th	Doors open 12 pm, Lunch 12 pm, Play 2 pm Lunch with Specials: 11 am - 2 pm
June 26th	Lunch with Specials: 11 am - 2 pm WOW! Finally Friday: 5 pm - 8 pm Dinner with Specials: 5 pm - 8 pm

*Reservations Required

FLY Your FLAG!
In honor of Independence Day, all residents are encouraged to display their American flag outside of their homes, whether on the lake or off.
Let's see how many flags we can fill the community with.

4th of July BBQ Lunch Plate
In celebration of Independence Day, Waters Edge Restaurant will be serving a BBQ lunch plate on Tuesday, July 4th, from 11:00 am - 2:00 pm.
The BBQ lunch plate will include: BBQ Sausage, BBQ Chicken (white or dark), Baked Beans, Cole Slaw, Corn, a slice of Watermelon and Apple Pie.
These lunches will be sold for \$14.99 for an adult's plate and \$7.99 for a child's plate. Be sure to call the HAWL Office (601-798-1484) to reserve your plate by June 26, 2017.
*This special is available for dine in or carry out.
No menu items will be available for purchase.

Boat Parade Contest

July 4th 6:00 pm
Show Your Red, White, and Blue!
Want to participate in HAWL's annual boat parade? Simply decorate your boat to show your patriotism and line up at the west marina at 6:00 pm. Numbers will be issued to all those lined up. These numbers will need to be displayed on the right side of each participant's boat. Once the judges' scores are totaled, trophies will be awarded for 1st and 2nd place to the most patriotic boats. For more information, call the HAWL office at 601-798-1484.

HAWL July 2017 Fireworks Celebration

Summertime is almost here, which means it will soon be time for barbecuing, swimming, and outdoor activities. While Memorial Day kicks off the summer season, the 4th of July tends to be a favorite among many.
Hide-A-Way Lake's Annual Fireworks Celebration will be held at 9 pm on Tuesday, July 4, 2017. This fireworks show depends solely on the donations from property owners. Engaged with this *Echoes*, you will find a coupon to use if you wish to make a donation to the fireworks celebration. The donation may be made by cash, check, or charged to your HAWL account (if donating by check, please issue the check separately from your payment check). Also, extra coupons will be available in the HAWL office and the restaurant for your convenience. All contributors will be listed in the *Echoes* along with a running total of the amount donated.

Fourth of July Fireworks Celebration
HAWL's fireworks donation goal is \$5,000. As of May 15, 2017, a total of \$3,433.66 has been donated. This amount includes \$1,762.66 carried over from the 2016 donations. "Thank You" to all of the generous property owners for your donations. The names listed below are the property owners whose donations were received as of May 15, 2017.

Al & Liz Rouchell	Dave & Dolly Kingsley	Jeanette Jennings	Pam & Suzie Dresser
Al & Mary Lou Christian	David & Wynn Hemetler	John & Valerie	Phyllis Brossette
Al Ziemer	Delores Caso	John McCoy	Ryan L. Candelat
Anonymous	Dub & Donna Herring	Kathy & Danny Stockstill	RP & Maria Priehard
Barbara & Meryl Jackson	E. Chanel & B. Calametti	Kathy Busso	Robert & Sylvia Stanton
Bob & Treva Larson	Earl & Shirley Jeansome	Ken & Ronnie Sommier	Ron & Pat Pichoff
Bob & Treva Larson	Edward & Evelyn Carthill	Ken & John Bricks	Russ & Pat Wagner
Catherine Longo Johnson	Elroy & Sarah Letdet	Larry Friterson	Ruth A. Mitchell
Charles & Rose Scott	Emery Dyer	Larry Friterson	Sharon & Fred Villars
Charles & Sarah Johnson	Emery & Jeff Stricker	Laurie & Kelly Mansfield	Sharon & Ray Schmitt
Chirri Adams	F & FM	Linda & John Cardarella	Sie & Tom Gahlbert
D.R. Truck	Felix & Irene Herring	Marge & Richard Sandy	Tim Walsdorf
Danny & Jeannette Albert	Jack & Marlon Thomason	Mark & Kathy Faucett	Tom & Fay Davis
Darin Anderson	Jan & Jean Seikler	Mike & Bonnie Hemstad	William Johnson

1. Person requesting access must be a registered resident. Picture ID must be presented in order to obtain entry into the pool area. Member must be in good standing.
2. Members must pay for guests before entering the pool. Falsifying information will result in loss of pool privileges.
3. Children, 12 years of age and under, must be accompanied at all times by a person (16 years or older) responsible for the child/children. The responsible person must remain in the pool area with children. Responsible person must be alert and accountable for the actions of their child/children at all times.
4. All swimmers must shower before entering pool. Swimming shoes are recommended to be worn while in the pool.
5. NO food, ice chests, glass containers, smoking, or pets allowed in pool area. Put all trash in receptacles. Do not remove furniture from pool area.
6. Running or rough play is not allowed. Only one person is allowed on the diving board at a time, only one spring on board. Swimming under diving boards and hanging from diving boards or ropes is prohibited.
7. Foul/obscene language or gestures and talking back to lifeguard will not be tolerated. No public displays of affection.
8. Balls of any kind, water guns, toys, or objects that can be thrown around or in the pool is prohibited. Lifeguard has the discretion of prohibiting items from the pool.
9. Anyone caught climbing the fence to enter pool will be charged with trespassing.
10. No flotation devices are allowed in the pool unless an adult is within arms reach of the child with the float at all times. Only child flotation devices allowed - No rafts.
11. Swimmers with infectious diseases are not allowed in pool. Infants in diapers must wear swim diapers or rubber pants in the pool at all times.
12. Large groups of swimming guests must be approved in advance by the General Manager. Property owner must contact the General Manager during normal office hours. A large group will be denied entrance if the pool is at capacity and prior approval for a large group has not been arranged.
13. Non-swimmers are not permitted in the deep end of the pool.
14. Swimsuits only in pool. NO cut-offs (hemmed or not), shirts, shorts, or other non-swimming apparel allowed in pool.
15. Swimmers in wet, dripping bathing suits are not permitted in the Lodge. Cover-ups are required to enter the Lodge at any time. Towels are not considered cover-ups.
16. Every hour there will be a ten minute break when children must leave the pool. Individuals 16 years of age and older may stay in pool and SWIM AT THEIR OWN RISK. Everybody else MUST CLEAR THE POOL COMPLETELY and REMAIN OUTSIDE THE FENCE. No pool attendant during this break.
17. Only children 5 years of age and under allowed in Kiddly Pool and must be accompanied by a person 16 years of age and older at all times.
 - 1st Time - Warning
 - 2nd Time - 15 minute sit down
 - 3rd Time - Ban from pool for the rest of the day
 - Repeated pool or serious offenses will result in more extensive pool banishment and an administrative fee assessment, both to be determined by the General Manager.
18. Failure to follow the rules may result in the following consequences:
 - Member is responsible for knowledge of HAWL published pool policies.

Pool Hours: Tuesday - Sunday 11:00 am - 8:00 pm

ECHOES is published monthly and distributed to Hide-A-Way Lake Property Owners. The Publication is authorized by the Board of Directors of Hide-A-Way Lake Club, Inc.

*Business dealings with businesses advertised in the Echoes Newsletter are solely between you and such advertiser. HAWL shall not be responsible or liable for any loss or damage of any sort incurred as the result of any such dealings.

Bruce Dewillier, General Manager

Contact Information

HAWL OFFICE: 601-798-1484
HAWL FAX: 601-798-0604
GUARD GATE: 601-798-1247
HAWL EMAIL ADDRESS: office@hawls.net
WEBSITE: www.hawls.com
P.R.C. UTILITY AUTHORITY 601-799-5259

Office Hours:

Monday - Friday 8:00 am - 4:30 pm
Saturday 9:00 am - 12:00 pm (May - July)

Sauntigate Usage Hours:

Monday - Friday (excluding holidays)
6:00 am - 9:00 am & 3:30 pm - 8:00 pm

When exiting onto Cooper Rd, please observe 20 mph.
Please be aware that these times can be utilized for entry, however, only property owners with a valid HAWL decal will be allowed entry, after gate verifies.

Swimming Pool Hours:

Tuesday - Sunday: 11:00 am - 8:00 pm

* See pg. 8 for HAWL's pool rules and HAWL's website for bad weather procedures.
* Visitors must pay \$2 to swim.
* A picture ID, must be presented in order to sign in.
* HAWL account must not be delinquent.

Attention PRCUA Customers:

Should any issues ever arise with your sewer system, please contact the PRCUA (601-799-5259). This number should be called **prior** to contacting a plumber since most maintenance issues can be handled by the PRCUA at no cost to the property owner. The PRCUA's number is in service 24 hours a day/7 days a week.

Message from PRCUA: Prohibited Items for Sewer System

Under the PRCUA Rules and Regulations, "Prohibited Items" include rags, paper towels, diapers, baby wipes, tampons or sanitary pads, applicators, condoms, condom wrappers, large food particles, chemicals, excessives detergents or bleach, and excessive fats, oils, or grease. Section 4.4.5(d) of the Rules and Regulations also provide that the cost of the grinder pump repair or replacement will be charged to the property owner if the damage is found to be the result of flushing prohibited items into the system.

The 2016 Drinking Water Report (CCR 2016) for HAWL's water system is now available. This report is on our website under the "Water System" tab and can be found at: <http://www.hawls.com/HCCR16.pdf>. Copies are also available in the HAWL office. Additionally, you may also call the office (601-798-1484) to request that a copy be mailed to you.

Spring Garden of the Season

Barbara and Tom Rosselot of 243 East Sunnybrook have been awarded the Spring Garden of the Season. The front porch is graced with two flower pots spilling over with colorful celosia and Indian Hawthorne. The gardens lining the side and back of the home are full with blooming red roses, petunias, marigolds, celosia, geraniums, impatiens, sea palms, tradescantia, miniature nandina and a purple mandevilla vine intertwined on a trellis. The back patio is a paradise of its own with hanging baskets of mint, basil, and rosemary along with large potted tomato plants. There is a beautiful blend of colorful flowers and savory vegetables to satisfy the eye.

Pet Waste Cleanup Stations

Picking up after your dog is not only the neighborly thing to do but it can also promote a healthier environment since dog waste can transmit diseases. When walking your dog in the community, please ensure that you have the necessary supplies to clean up after your pet. Take advantage of the new pet waste stations placed in the community at the following locations: the walking path on the dam and both the East and West playgrounds.

Channelled Applesnails

These snails have been in our lake for over 20 years. The problem with the snails is the ecological damage they can cause, which threatens the marine life of our lake. The first visible signs are usually the egg clusters which are bright pink clumps of 200-600 tiny eggs attached to a tree, stump, pilings, or other objects at the water line. If you see these egg clusters, please **scrape them off into the water** where they cannot hatch. This will help reduce the population. To view a picture of this and for more information see the bulletin on our website (www.hawls.com).

2016 Drinking Water Quality Report

HIDE-A-WAY WATER SYSTEM

James Fretwell, Certified Water Operator
PWS ID #MS0550013 Pearl River County
510 E. LAKESHORE DR. CARRIERE, MS 39426
www.hawlms.com office@hawlms.net
601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from three (3) wells that draw ground water from the **Miocene Series Aquifer**.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the **second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club House**. We encourage all customers who have any concerns or questions to meet with us. Our association conducts its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. This is a very important meeting in which all customers are encouraged to attend.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address: <http://www.healthymms.com>. Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data though representative of the water quality may be more than one year old.

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hide-A-Way Water System is responsible for providing high-quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-7582 if you wish to have your water tested.

Terms and Abbreviations used in the Table

MCLG: Maximum Contaminant Level Goal - is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MCL: Maximum Contaminant Level - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

AL: Action Level - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

ND: Non-detect.

TEST RESULTS						
Contaminant	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
Inorganic Contaminants						
Antimony (ppm) Well #2 Well #3	0.006 0.006	0.006 0.006	0.0005 0.0005	03/30/16 03/30/16	NO NO	Discharge from petroleum refineries; fire retardants; ceramics; electronics; solder.
