The State Agency Directory of Health Facilities provides information regarding health facilities in Mississippi that are licensed and/or certified for participation in the Medicare and/or Medicaid Programs by the Bureau of Health Facilities Licensure and Certification.

The Directory is compiled from information provided to our agency from the license applications submitted for the current licensure year. During the course of this licensure year, information obtained in this directory is subject to change.

Definitions

Hospitals - Hospital licenses will be issued to the following types of hospitals: General and Psychiatric. Within these types, the license will indicate the number of beds approved for (1) Medical-Surgical (which includes general medical-surgical beds, obstetrical beds, pediatric beds, neonatal ICU beds), (2) Psychiatric, (3) Chemical Dependency, and (4) Rehabilitation.

These four types of licenses are defined as follows:

1. **Medical-Surgical**: Beds that are designated for the care of patients with general medical and surgical needs over a continuous period exceeding 24 hours. Services and facilities are maintained and organized for individuals requiring diagnosis for illness, injury, deformity, abnormality, or pregnancy. These beds include OB, pediatric, neonatal ICU and other ICU beds.

2. **Psychiatric**: Freestanding facilities established to offer facilities, beds, and services over a continuous period exceeding 24 hours to individuals requiring diagnosis and intensive and continued clinical therapy for mental illness. Distinct parts of General Acute hospitals may be designated as psychiatric services.

3. **Chemical Dependency Unit**: Specialized beds located within a distinct unit of a General Hospital or a free-standing facility which are used specifically for the diagnosis and treatment of alcohol and other drug related dependencies over a continuous period exceeding 24 hours.

4. **Rehabilitation Unit**: Specialized beds which are operated as a distinct unit within a hospital or as a freestanding facility for the purpose of assisting in the rehabilitation of disabled persons through an integrated program of medical, psychological, social, or vocational evaluation and services under competent supervision over a continuous period exceeding 24 hours.

**Skilled Nursing Care Facility** means a health institution planned, organized, operated, and maintained to provide facilities and health services with related social care to in-patients who require medical care and 24-hour nursing services for illness, injury, or disability. Each patient shall be under the care of a physician licensed to practice medicine in the State of Mississippi. The nursing services shall be organized and maintained to provide 24-hour nursing services under the direction of a registered professional nurse employed full-time.

**Distinct Part/Skilled Nursing Facility** may be created within an existing acute care hospital. Such licensed beds typically utilize a portion of the existing acute care hospitals license capacity. The DP/SNF may only participate in the Medicare Program, whereas the Long Term Care Hospital may participate in the Medicare/Medicaid Program(s).

**Intermediate Care Facility for the Mentally Retarded** means a facility for the mentally retarded persons, established primarily for the diagnosis, treatment and habilitation of the developmentally disabled. It provides 24-hour supervised residential living with individualized on-going evaluation, coordinating, integrated preventative health program and habilitation services. These services are planned to help each resident reach and maintain his maximum functioning capabilities in order to move to a less restrictive environment.

**Psychiatric Resident Treatment Facility** means any non-hospital establishment with permanent facilities which provides a twenty-four (24) hour program of care by qualified therapists including, but not limited to, duly licensed mental health professionals, psychiatrists, psychologists, psychotherapists and licensed certified social workers, for emotionally disturbed children and adolescents, who are not in an acute phase of illness requiring the services of a psychiatric hospital, and are in need of such restorative treatment services.

**Personal Care Home** means an establishment operated and maintained to provide residential accommodations, personal service, and social care to individuals who are not related to the licensee and who because of impaired capacity for self-care elect or require protective living accommodation but do not have an illness, injury, or disability for which regular medical care and 24-hour nursing service is required.
**Ambulatory Surgical Facility** shall mean a publicly or privately owned institution which is operated primarily for the purpose of providing elective surgical treatment of "out-patients," whose recovery, under normal and routine circumstances, will not require "in-patient" care.

An "Ambulatory Surgical Facility" as herein defined includes an institution engaged in such out-patient surgery whether using the name "Ambulatory Surgical Facility" or a similar or different name, but does not include the offices of private physicians or dentists whether practicing individuals or in groups and does not include ambulatory surgical center, as defined in 42 C.F.R. 416.2, which is owned and operated by a hospital licensed under Section 41-9-9 et seq. of the Mississippi Code of 1972, as amended, unless the hospital has obtained a separate Medicare provider number for the ambulatory surgical center.

Once licensed under this chapter, an "ambulatory surgical center" will not be allowed to assume or revert to a position as a component part of any hospital without securing a Certificate of Need to do such.

**Home Health Agency** means a public or privately owned agency or organization, or a subdivision of such an agency or organization, properly authorized to conduct business in Mississippi, which is primarily engaged in providing to individuals, at the written direction of a licensed physician, in the individual’s place of residence, skilled nursing services provided by or under the supervision of a Registered Nurse licensed to practice in Mississippi, and one or more of the following part-time or intermittent services or items: (a) physical, occupational, or speech therapy; (b) medical social services; (c) home health aide services; (d) other services as approved by the licensing agency; (e) medical supplies, other than drugs and biologicals, and the use of medical appliances; (f) medical services provided by a resident in training at a hospital under a teaching program of such hospital.

**Independent Laboratory** means a clinical laboratory independent of both the attending physician’s office and of a Medicare-certified hospital, operated for the purpose of performing diagnostic tests on specimens referred from other health providers.

**Rehabilitation Agency** means an agency which provides an integrated multi-disciplinary program designed to upgrade the physical function of handicapped, disabled individuals by bringing together as a team specialized rehabilitation personnel. At a minimum, a rehabilitation agency must provide physical therapy or speech pathology services and a rehabilitation program which, in addition to physical therapy or speech pathology services, includes social or vocational adjustment services.

**Rural Health Clinics** means clinics that provide general outpatient health services in rural areas as defined by the U.S. Bureau of Census where access to physicians has traditionally been difficult. These services are provided by a specially trained nurse practitioner under the general supervision of a physician.

**Physical Therapist in Independent Practice** means physical therapists who are certified in the Medicare Program to provide only outpatient physical therapy services either in the physical therapist’s office or in the patient’s home.

**End Stage Renal Disease Facility** means a facility that provides either or both hemodialysis or peritoneal dialysis to patients with irreversible and permanent kidney impairment. An ESRD facility may also provide self-care dialysis and/or self-care dialysis training.

**Swing-Bed** Providing both acute care and extended care was once an accepted health care practice in rural hospitals. This practice, however, largely disappeared with the inception of reimbursement mandated that a hospital providing extended or long-term care do so in a physically distinct part of the institution exclusively designated for extended or long-term care. In addition, the regulations required specialized services and imposed financial restraints through the reimbursements mechanism. Therefore, rural hospitals stopped providing extended or long-term care unless they operated nursing homes in separate, distinct units.

Effective November 21, 1991, to participate as a swing-bed hospital, the hospital must not have more than ninety-nine (99) in-patient hospital beds. Also, the hospitals must meet the following federal skilled nursing facility’s Conditions of Participation and standards: patient’s rights, specialized rehabilitative services, dental services, social services, patient activities, and discharge planning.
Hospice is defined as a concept not a place, a way of dealing with dying patients. The place of care should be left to the patient/family and physician. It is a program in which emphasis is placed upon palliative and supportive care to meet the special needs of patients and their families during the final stages of illness. Full scope health services are provided by an organized interdisciplinary team, available on a 24-hour-a-day, seven-days-a-week basis.

Comprehensive Outpatient Rehabilitation Facility is a facility that is established and operated at a single fixed location, exclusively for the purpose of providing diagnostic, therapeutic, and restorative services to outpatients by or under the supervision of a physician. A CORF must provide, at minimum, physicians’ services, physical therapy, and social or psychological services.

Abortion Facility means a facility primarily organized or established for the purpose of performing abortions for outpatients and is a separate identifiable legal entity from any other health care facility. This term includes physicians’ offices which are used primarily to perform elective abortions.

Birthing Center means a publicly or privately owned facility, place or institution where non-emergency births are planned to occur away from the mother’s usual residence following a documented period of prenatal care for a normal uncomplicated pregnancy which has been determined to be low risk through a formal risk scoring examination.
