Preface

Overview

This publication reflects data collected in the hospital licensure process. A historical accounting of the responsibility for this function began in 1946 when the Mississippi Commission on Hospital Care was legislatively authorized to license non-federal hospitals and prepare an annual report. In 1979 the legislature passed a bill to merge the responsibilities of the Commission on Hospital Care into the Mississippi Health Care Commission and in 1986 another bill was passed to merge the responsibilities into the Mississippi State Department of Health.

In October 2009, the Bureau of Health Facilities Licensure and Certification mailed copies of its combined "Annual Hospital Report and Application for Renewal of Hospital Licensure" and the American Hospital Association's "Annual Survey of Hospitals" to all non-federal hospitals in Mississippi. This survey is the source of statistics for this publication. A copy of the survey form is included in Appendix E. The hospital survey forms were reviewed and automated by the Division of Public Health Statistics. Questions regarding reported data were answered by hospital personnel through letters or telephone calls.

In 1984, for planning purposes, the Statewide Health Coordinating Council (SHCC) established seven hospital service areas based on where patients sought hospital care. For ease in using the data presented in this report some tables are presented by the planning service areas. Map II displays the hospital service Areas.

This Annual Report is based on 108 hospitals; 94 acute care, 3 psychiatric, 1 rehabilitation, 1 OB/GYN, and 9 long-term acute care. The five federal hospitals in Mississippi have been excluded. Additionally, East Mississippi State Hospital, Mississippi State Hospital Crisis Intervention Center Brookhaven, Mississippi State Hospital Crisis Intervention Center Cleveland, Center, North Mississippi State Hospital, North Mississippi State Hospital Batesville Crisis Intervention Center, North Mississippi State Hospital Corinth Crisis Intervention Center, Oak Circle Center, South Mississippi State Hospital, South Mississippi State Hospital Crisis Intervention Center Laurel and Whitfield Medical/Surgical Hospital have been excluded from all data except Table II and Table III. Map I shows location of hospitals by type of facility, Table II shows accreditations and Table III displays employees.

Two crisis intervention hospitals located in Grenada County and Newton County closed during the reporting period.

Hospital Ownership and Certification

Ninety-four hospitals in Mississippi are classified as medical/surgical. These figures were based on the type of service that the hospitals provided to the majority of admissions. Data from the ten long-term care hospitals are included with the 94 acute care hospitals plus the one OB/Gyn facility. The other acute care facility, Whitfield Med/Surg is not included in the acute care statistics. The seven counties in Mississippi that do not have a hospital are Amite, Benton, Carroll, Issaquena, Itawamba, Kemper, and Tunica.

Ownership and control of hospitals and beds are shown in Tables I-A through I-D. In 2009 there were 11,413 licensed acute care beds. (This count excludes Whitfield Medical Surgical Hospital and includes Mississippi Hospital for Restorative Care, Promise Specialty Hospital of Vicksburg, Regency Hospital of Hattiesburg, Regency Hospital of Jackson, Regency Hospital of Meridian, Select Specialty Hospital of Gulfport, Select Specialty Hospital Jackson, Specialty Hospital of Meridian and Long Term Acute Hospital of Greenwood.

Eighteen hospitals reported 773 licensed psychiatric beds. Seventy-four percent of the beds, 572, were located at acute care hospitals. Twelve hospitals reported 353 licensed chemical dependency beds. Thirteen hospitals reported 353 rehabilitation beds. Seventy-nine percent, 273, were located at 12 acute care facilities.

Table II indicates that 60% of the hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organization (JCAHO). Ninety-three percent of the hospitals participate in Blue Cross and 98.3% participate in Medicare, and 92.5% participate in Medicaid. This represents all 120 hospitals.

Hospital Employees

Table III displays hospital personnel. Mississippi's hospitals employed 60,793 people during 2009, of which 80.4% were full-time employees and 19.6% were part-time employees.

Services Utilization

Tables IV - XII show number of procedures by hospital service area for the following categories:

Head and Body CT Scans	Cardiac Catheterization
Diagnostic Radioisotope	Angioplasty
X-Ray	Cardiac Surgeries
Magnetic Resonance Imaging	Renal Extracorporeal Shock
Ultrasound	Wave Lithotripter
Digital Subtraction Angiography	Physical Therapy
Single Photon Emission	Occupational Therapy

Computerized Tomography (SPECT)
Linear Accelerator
Radioactive Implants
Therapeutic Radioisotope
Cardiac Catheterization

Geriatric Patients Served
Respite Patients Served
Inpatient and Outpatient
Surgeries
Outpatient Utilization
Rural Health Clinics

Sixty-four hospitals reported 113,866 inpatient surgeries and seventy hospitals reported 173,680 outpatient surgeries. This count includes only surgeries performed at acute care hospitals. As Table X shows, the majority of surgeries were performed in Service Area 5.

Table XI presents outpatient emergency visits and clinic/other visits by Hospital Service Area. Service Area 5 reported both the most outpatient emergency visits and clinic/other visits.

Thirty-two hospitals reported 65 rural health clinics and 692,711 rural health clinic visits. Table XII shows rural health clinics and visits by hospital service area. One hospital was unable to provide rural health visits.

Bed Changes

Seven hospitals changed their license bed capacity during the reporting period. Alliance Health Center increased their beds from 134 to 154, Diamond Grove increased from 20 to 25, George County Hospital decreased from 53 to 48, Mississippi Baptist Medical Center decreased from 651 to 538, Scott Regional Hospital decreased from 30 to 25, Tri-Lakes Medical Center increased from 110 to 112 and Winston Medical Center decreased from 49 to 30.

Name Changes

Two hospitals changed names during the reporting period. Jeff Anderson Regional Medical Center is now Anderson Regional Medical Center and Greenwood Speciality Hospital changed to Long Term Acute Hospital of Greenwood.

Hospital Closings

Two crisis intervention centers closed during the reporting period, Grenada and Newton counties.

Licensed Beds, Average Length of Stay, Average Daily Census and Occupancy Rate

Table XIII shows hospitals and beds by bed size groupings. Occupancy rates are also shown by bed size. Under acute care the greatest number of hospital beds was reported at hospitals with 25 - 49 beds, 50-99 beds, and 100-199 beds. Of the 17 hospitals reporting psychiatric beds, three were licensed as psychiatric hospitals. Three

hundred fifty-three chemical dependency beds were reported at 12 hospitals. Thirteen hospitals reported 353 rehabilitation beds.

Table XIV-A gives average lengths of stay (ALOS), average daily census (ADC), percentages of occupancy for each hospital by licensed acute care bed capacity and state totals. Psychiatric data can be found in Table XIV-B, chemical dependency data in Table XIV-C, and rehabilitation data in Table XIV-D.

A comparison of licensed beds and beds set up and staffed is shown in Tables XV-A -XV-D. Of the 11,413 licensed acute beds, 10,376 beds were set up and staffed. Seven hundred fourteen of the 757 licensed psychiatric beds were set up and staffed. Three hundred thirty-four of the 353 licensed chemical dependency beds were set up and staffed.

Swing Beds

Table XVI shows the number of swing beds, average length of stay and average daily census by facility. Table XVII shows the destination of discharged swing bed patients, number referred to home health, and number of acute care beds designated as swing beds by service area. Over two-thirds (70.4%) were discharged to their home, 11.6% were discharged to nursing homes, 8.2% were admitted to hospitals, 7.9% were admitted to personal care homes, and the remaining 1.9% were discharged to other destinations.

Swing bed utilization in 2009 by hospital service area is shown in Table XVIII.

Hospital Use Statistics

Table XIX shows the population of each service area in comparison with its licensed bed capacity. Service areas are maintaining a relatively close correlation between the percentage of population and percentage of licensed hospital beds. Service Area 5, including the city of Jackson and Hinds County, has the largest population at 24.7% and the most beds at 30.2%. Licensed beds by type are also shown by hospital service area.

Table XX-A provides information on acute hospital beds, admissions, discharges, deaths and inpatient days by service area and county. Psychiatric, chemical dependency and rehabilitation beds located in acute care facilities are included in Table XX-B along with those facilities that are licensed as psychiatric, or rehabilitation facilities. There are 11,413 licensed acute care hospital beds in Mississippi, 773 psychiatric beds, 340 chemical dependency beds, and 353 rehabilitation beds.

A comparison of utilization statistics for 1999, 2004 and 2009 is shown in Table XXI. While there wasn't much change in acute care data

from 1999 to 2009, most psychiatric and rehabilitation data increased while chemical dependancy data decreased.

Table XXII deals with newborn statistics. Once again, Service Area 5 leads in every category, as does Hinds County. Table XXIII compares with the newborn statistics of 2009 with those of 2004 and 1999. There was a -11.4% percent of change in bassinets and a -14.7 percent of change in obstetrical beds set up and staffed. Deliveries saw an 2.6 percent of change from 1999. The percent of change in fetal deaths was -1.2%.

Table XXIV displays discharges, discharge days, admissions and inpatient days by service area for DP SNF, geriatric psychiatric, patients 65 and older, Medicare and Medicaid.

Table XXV shows beds set up, discharges, discharge days and inpatient days for the state's hospitals. Data reported by specialty hospitals is also included. Data is broken down into acute care, intensive care, other care, and long-term care. No data was reported for psychiatric intensive care, hospice, psychiatric long term care or mental retardation.

Obstetrical Utilization

2009 obstetrical utilization is shown in Appendix A.

Hospital Listing

Hospitals are listed alphabetically by county in Appendix C. The hospital directory is located in Appendix E. The licensed bed capacity is reported as of January 1, 2010 whereas the rest of the report is as of the end of the reporting period, usually September 30, 2009.

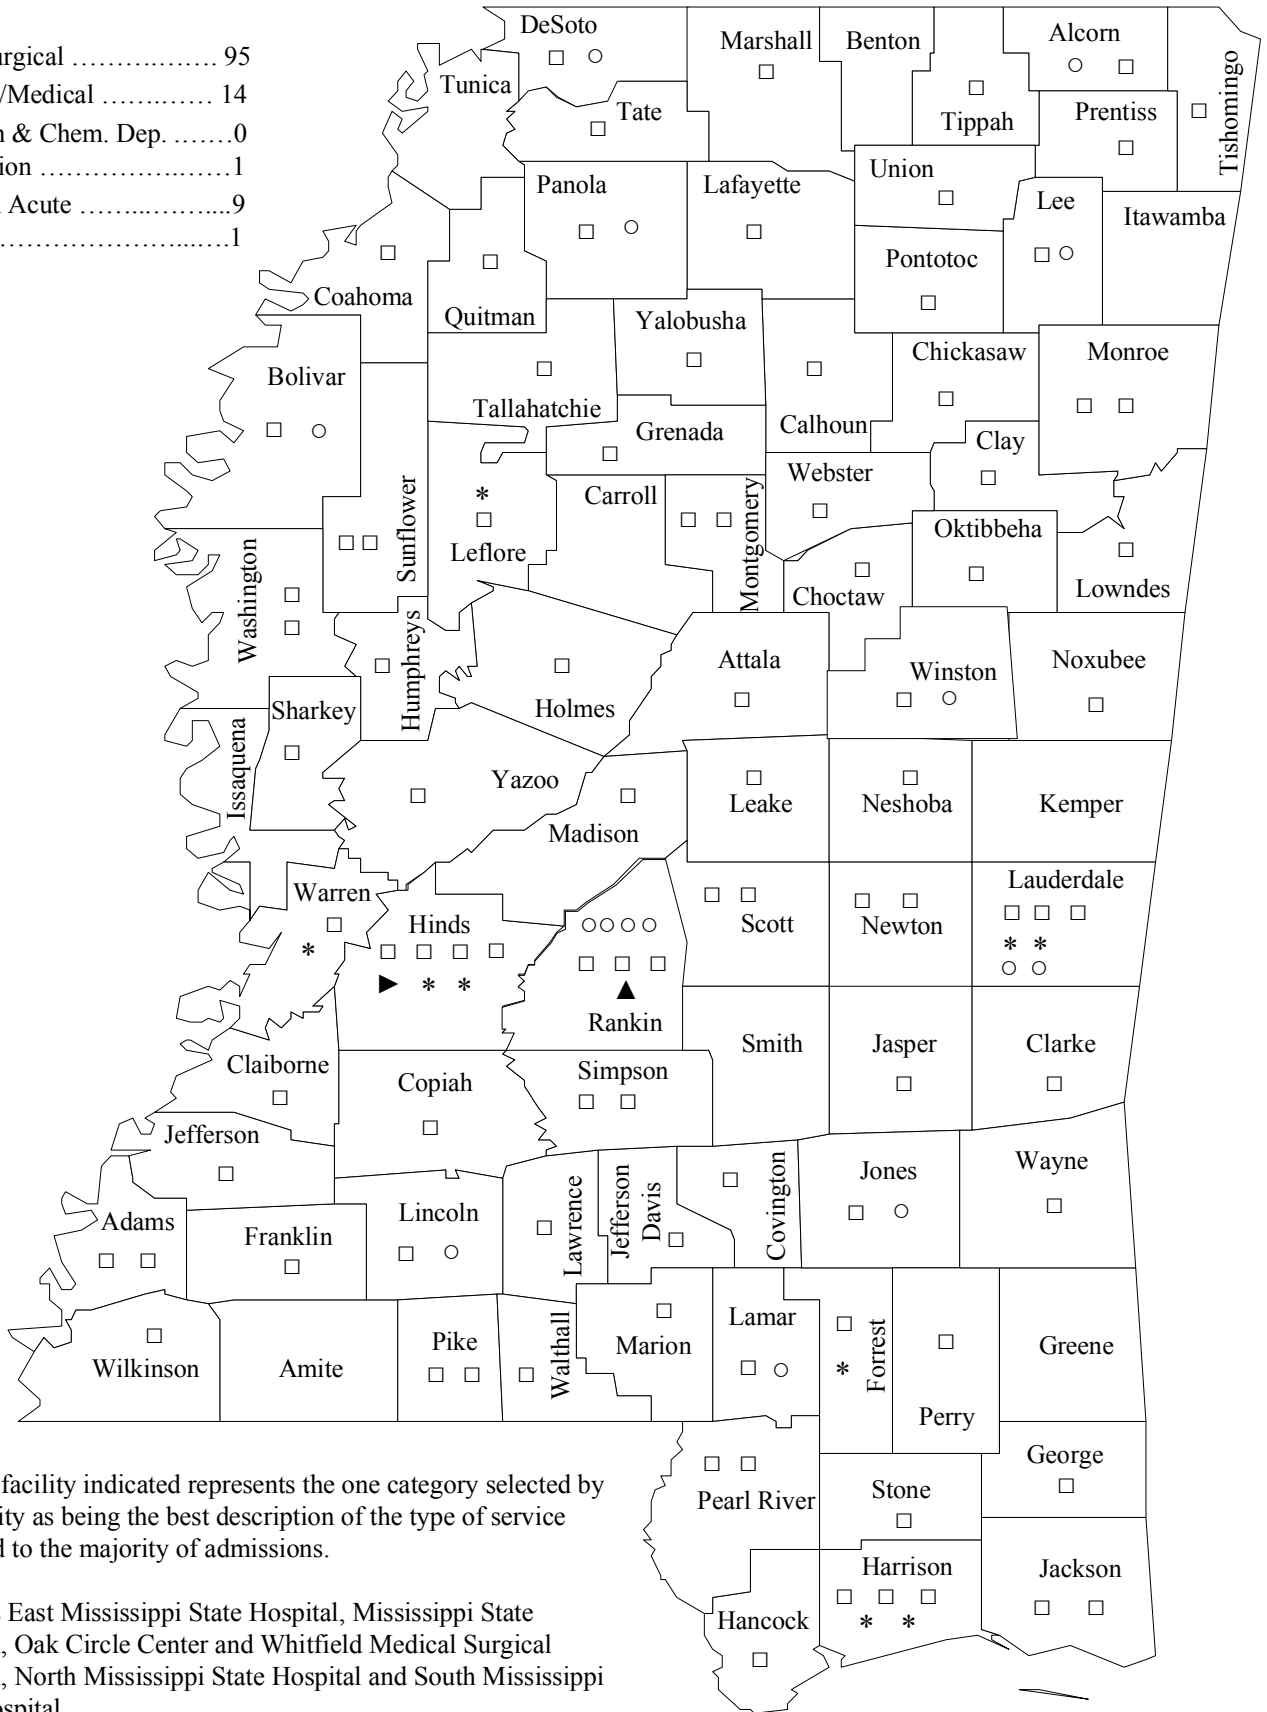

State Owned Facilities

Data relating to state owned facilities may be found in Appendix D. These include East Mississippi State Hospital and Mississippi State Hospital.

Map 1

Distribution of Mississippi Hospitals by Type of facility and County

- Medical/Surgical 95
- Psychiatric/Medical 14
- ◆ Alcoholism & Chem. Dep. 0
- ▶ Rehabilitation 1
- * Long Term Acute 9
- ▲ OB/GYN 1

Note: Type of facility indicated represents the one category selected by the facility as being the best description of the type of service provided to the majority of admissions.

Includes East Mississippi State Hospital, Mississippi State Hospital, Oak Circle Center and Whitfield Medical Surgical Hospital, North Mississippi State Hospital and South Mississippi State Hospital
