Pandemic Influenza:

WHAT IS IT?

A virus, different from seasonal flu, which people have not been exposed to. This virus would spread easily from person to person and cause serious illness around the world.

Pandemic Flu Preparation:

WHAT CAN BUSINESSES DO?

- Determine** how a flu pandemic might affect the services you provide.
- Work with** public health agencies to understand more about what to expect in a pandemic.
- Develop** specific plans to maintain operations during a pandemic.
- Identify** which positions are essential to keep up operations.
- Establish** policies for employee compensation, sick-leave absences, and flexible work sites and hours.
- Train** and prepare back-up workers, if possible.
- Communicate** reliable, accurate, and up-to-date information to your employees and customers.
- Provide** hand soap and/or anti-bacterial gel, tissues, and trash cans in all business locations.
