

### Block III – EMT Refresher Description

**Block III provides a comprehensive review of trauma assessment and emergency management at the EMT level. Instruction includes trauma patient assessment, bleeding and shock, soft-tissue injuries, burns, musculoskeletal injuries, head and spinal injuries, chest and abdominal trauma, and recognition of multisystem trauma. Emphasis is placed on identifying and managing immediate life threats, hemorrhage control, spinal motion restriction, appropriate splinting and patient packaging, rapid transport decisions, and applying National Registry-style clinical decision-making to trauma emergencies.**
