CCR CERTIFICATION
CALENDAR YEAR 2014

City of Belzoni
Public Water Supply Name

0270001

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community public water system to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the public water system, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must mail, fax or email a copy of the CCR and Certification to MSDH. Please check all boxes that apply.**

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

- ☒ Advertisement in local paper (attach copy of advertisement)
☐ On water bills (attach copy of bill)
☐ Email message (MUST Email the message to the address below)
☐ Other

Date(s) customers were informed: 06/17/2015 / / , / /

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used

Date Mailed/Distributed: / /

CCR was distributed by Email (MUST Email MSDH a copy)

Date Emailed: / /

- ☐ As a URL (Provide URL)
☐ As an attachment
☐ As text within the body of the email message

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: The Belzoni Banner

Date Published: 06/17/15

CCR was posted in public places. *(Attach list of locations)*

Date Posted: / /

CCR was posted on a publicly accessible internet site at the following address (**DIRECT URL REQUIRED**):

CERTIFICATION

I hereby certify that the 2014 Consumer Confidence Report (CCR) has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the public water system officials by the Mississippi State Department of Health, Bureau of Public Water Supply.

JUNE 17, 2015

Annual Drinking Water Quality Report
City of Belzoni
PWS ID# 0270001
June 2015

THE BELZONI BANNER
LIDDELL MAKES
D'AN'S LIST AT THE W

PAGE SEVEN

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water.

Spanish (Español)

Este informe contiene información muy importante sobre la calidad de su agua potable. Por favor lea este informe o comuníquese con alguien que pueda traducir la información.

Is my water safe?

Last year, as in years past, your tap water met all U.S. Environmental Protection Agency (EPA) and state drinking water health standards. Local Water vigilantly safeguards its water supplies and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard.

Where does my water come from?

Spain Sands Aquifer

Source water assessment and its availability

A copy is on file at City Hall.

How can I get involved?

By attending your local meetings at the City Hall every first Tuesday at 4:00p.m.

Fluoridation:

To comply with the "Regulatory Governing Fluoridation of Community Water Supplies", CITY OF BELZONI is required to report certain results pertaining to fluoridation of our water system. The number of months in the previous calendar year in which average fluoride sample results were within the optimal range of 0.7 - 1.3 ppm was 0. The percentage of fluoride samples collected in the previous calendar year that was within the optimal range of 0.7-1.3 ppm was 0%.

Additional Information for Lead and Copper

If present, elevated levels of lead and copper can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. This water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing for \$10 per sample. Please contact 601-576-7582 if you wish to have your water tested.

Water Quality Data Table

The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently.

Contaminant	MCLG MCL		Your Sample	Range		Date	Violates	Typical Source			
	or MROD	or MROD		Water	Low				High		
Disinfectants & Disinfection By-Products											
(There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.)											
Chlorine (as Cl ₂) (ppm)	1.20	2.50	2.0	1.20	2.50	2014	No	Water additive used to control microbes			
RAA	0.30	4.0	0.70	0.56	0.72	2014	No				
Inorganic Contaminants											
Contaminant	MCLG AL		Your Sample	# Samples		Exceeds AL	AL	Typical Source			
	MCLG	AL	Water	Date	Exceeds AL						
Inorganic Contaminants											
Copper - action level at consumer taps (ppm)	1.3	1.3	0.002	2014	0	2013	No	Corrosion of household plumbing systems; Erosion of natural deposits			
Lead - action level at consumer taps (ppb)	0	15	0.015	2014	0	2013	No	Corrosion of household plumbing systems; Erosion of natural deposits
