Consumer Confidence Report (CCR)

Country Haven Mobile Home Park
Public Water System Name

MS0170027

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must email, fax (but not preferred) or mail, a copy of the CCR and Certification to the MSDH.** Please check all boxes that apply.

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

- Advertisement in local paper *(Attach copy of advertisement)* Desoto Times
- On water bills *(Attach copy of bill)*
- Email message *(Email the message to the address below)*
- Other posted in Lobby of Country Haven Park Office

Date(s) customers were informed: / /2018 / / /2018 / / /2018

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: / /

CCR was distributed by Email *(Email MSDH a copy)* Date Emailed: / /2018

- As a URL _____ *(Provide Direct URL)*
- As an attachment
- As text within the body of the email message

* CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: Desoto Times

Date Published: 7 / 3 / 2018

CCR was posted in public places. *(Attach list of locations)*

Date Posted: / /2018

CCR was posted on a publicly accessible internet site at the following address:

_____ *(Provide Direct URL)*

CERTIFICATION

I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the Mississippi State Department of Health, Bureau of Public Water Supply

V. R. Hutto Property Manager
Name/Title *(President, Mayor, Owner, etc.)*

Water Quality Report 2017

Prepared by:

Mitchell Technical Services, Inc
325 West McKnight
Murfreesboro, TN 37129

IS MY WATER SAFE ?

Last year your tap water met all monitored U.S. Environmental Protection Agency (EPA) and state drinking water health standards. We vigilantly safeguard the water supply and we are proud to report that our system meets all monitored federal and state requirements.

REPORT AVAILABILITY

This report is not mailed to the residents; however, it is published annually in the local paper and is also posted in the central office on the bulletin board for review.

DO I NEED TO TAKE SPECIAL PRECAUTIONS?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Water Drinking Hotline (800-426-4791).

WHERE DOES MY WATER COME FROM?

Our water comes from two wells over 200 feet deep, which draw ground water from the Sparta Sand Aquifer.

SOURCE WATER ASSESSMENT AND ITS AVAILABILITY.

Our source water assessment has been completed by the Mississippi State Department of Health. The results of the report are available at:

<http://landandwater.deq.ms.gov/swap/reports/report.aspx?id=0170027>

The susceptibility ranking of each of our wells was Moderate

WHY ARE THERE CONTAMINANTS IN MY DRINKING WATER?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

HOW CAN I GET INVOLVED?

We encourage all customers who have any concerns or questions to contact our office.

OTHER INFORMATION:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address:

<http://www.msdh.state.us/watersupply/index.htm>.

Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply including "Why, When, and How to Boil Your Drinking Water" may be obtained.

Water Quality Data Table

The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently.

Important Drinking Water Definitions:

ND: Non-Detects: Laboratory analysis indicates that the constituent is not present.

MCLG: Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MCL: Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

AL: Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Units Description:

NA: Not applicable

ND: Not detected

NR: Not reported

MNR: Monitoring not required, but recommended.

ppm: parts per million, or mg/L: milligrams per liter

ppb: parts per billion, or µg/L: micrograms per liter

Nitrates

Contaminant Sample Date	MCL MCLG	Your Water Violation Y / N
Nitrate 1/31/2017	10 ppm	< 0.08 ppm N
Nitrite 1/31/2017	1 ppm	< 0.02 ppm N
Nitrate-Nitrite 1/31/2017	10 ppm	< 0.1 ppm N

Inorganic Chemicals

Contaminant Sample Date	MCL MCLG	Your Water Violation Y/N	Likely Source of Contaminant
Barium (ppm) 04/14/2014	2.0 2.0	0.0314 N	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits
Chromium (ppm) 04/14/2014	0.1 0.1	0.0021 N	Discharge from steel and pulp mills; erosion of natural deposits
Copper (ppm) 06/23-25/2014	1.3 1.3	0.2 N	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing systems
Lead (ppm) 06/23-25/2014	0.015 0.015	0.003 N	Corrosion of household plumbing systems; Erosion of natural deposits

Lead & Copper-90th Percentile

Contaminant Sample Date	Action Level	Your Water Violation Y / N
Lead (90 th) 01/01/2015-12/31/2017	0.015 ppm	0.003 ppm N
Copper (90 th) 01/01/2015-12/31/2017	1.3 ppm	0.0 ppm N

Disinfectants & Disinfectant Byproducts

Contaminant Sample Date	MRDL RANGE	QTR AVG Violation Y/N
Maximum Residual Disinfectant Level (MRDL) January 2017 - December 2017	1.05 mg/L 2.01 mg/L	1.50 mg/L N

During a sanitary survey conducted on June 6, 2011, the Mississippi State Department of Health cited the following significant deficiency(s):

Inadequate internal cleaning / maintenance of storage tanks.

Corrective Actions: MSDH is currently completing enforcement actions to return the system back into compliance by 6/30/2018.

Dear Victoria:

This notice serves as your receipt for Class Display Ad #00058303.

Your ad will run 1 times beginning on 7/3/18.

No. of Words: 3
Insertion Cost: \$733.68
Adjustment Cost: \$3.00
Net Cost: \$736.68
Amount Prepaid: \$0.00
Amount Due: \$736.68

Your business is appreciated. If you have any questions, please call (662) 429-6397.

Affidavit of Publication

DESOTO TIMES-TRIBUNE

STATE OF MS } SS
COUNTY OF DESOTO }

Countryhaven CCR 2018

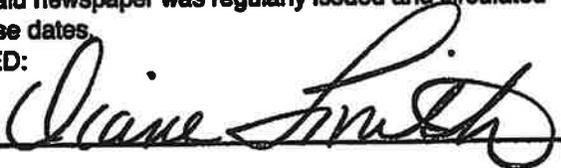

Diane Smith, being duly sworn, says:

That she is a Clerk of the DESOTO TIMES-TRIBUNE, a newspaper of general circulation in said county, published in Hernando, DeSoto County, MS; that the publication, a copy of which is printed hereon, was published in the said newspaper on the following dates:

July 03, 2018

That said newspaper was regularly issued and circulated on those dates.

SIGNED:

Clerk

Subscribed to and sworn to me this 3rd day of July 2018.

KIMBERLY BEVINEAU, Notary, DeSoto County, MS

My commission expires: January 18, 2020
