Consumer Confidence Report (CCR)

Hide-A-Way Water System

Public Water System Name

550013

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. You must email, fax (but not preferred) or mail, a copy of the CCR and Certification to the MSDH. Please check all boxes that apply.

Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*

Advertisement in local paper *(Attach copy of advertisement)*

On water bills *(Attach copy of bill)*

Email message *(Email the message to the address below)*

Other Hide-A-Way Lake Echoes (June 2018 edition of four monthly newsletter). B.U.S with newsletters was mailed on 5-29-2018.

Date(s) customers were informed: 5/29/2018 / /2018 / /2018

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: ___ / ___ / ___

CCR was distributed by Email *(Email MSDH a copy)*

Date Emailed: ___ / ___ / 2018

As a URL _____ *(Provide Direct URL)*

As an attachment

As text within the body of the email message

CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: _____

Date Published: ___ / ___ / ___

CCR was posted in public places. *(Attach list of locations)*

Date Posted: 5/23/2018

CCR was posted on a publicly accessible internet site at the following address:

http://www.haw.ms.com/f/CCR.pdf *(Provide Direct URL)*

CERTIFICATION

I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the Mississippi State Department of Health, Bureau of Public Water Supply

CCR Deadline to MSDH & Customers by July 1, 2018!

2017 Drinking Water Quality Report

HIDE-A-WAY WATER SYSTEM

James Fretwell, Certified Water Operator
PWS ID #MS0550013 Pearl River County
510 E. LAKESHORE DR. CARRIERE, MS 39426
www.hawlms.com office@hawlms.net
601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from three (3) wells (Well #2, Well #3, and Well #4) that draw ground water from the Miocene Series Aquifer.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club House. We encourage all customers who have any concerns or questions to meet with us. Our association conducts its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. This is a very important meeting in which all customers are encouraged to attend.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address: <http://www.healthmys.com>. Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data though representative of the water quality may be more than one year old.

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hide-A-Way Water System is responsible for providing high-quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-7582 if you wish to have your water tested.

Terms and Abbreviations used in the Table

MCLG: Maximum Contaminant Level Goal - is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MCL: Maximum Contaminant Level - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
AL: Action Level - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
ND: Non-detect.

TEST RESULTS

Contaminant	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
Inorganic Contaminants						
Antimony (ppm) Well #2 Well #3	0.006 0.006	0.006 0.006	0.0005 0.0005	03/30/16 03/30/16	NO NO	Discharge from petroleum refineries; fire retardants; ceramics; electronics; solder.
Arsenic (ppm) Well #2 Well #3	0 0	0.010 0.010	0.0005 0.0005	03/30/16 03/30/16	NO NO	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes.
Barium (ppm) Well #2 Well #3	2 2	2 2	0.0059 0.0057	03/30/16 03/30/16	NO NO	Discharge of drilling waste; discharge from metal refineries; erosion of natural deposits.
Beryllium (ppm) Well #2 Well #3	0.004 0.004	0.004 0.004	0.0005 0.0005	03/30/16 03/30/16	NO NO	Discharge from metal refineries and coal-burning factories; discharge from electrical, aerospace, and defense industries.
Cadmium (ppm) Well #2 Well #3	0.005 0.005	0.005 0.005	0.0005 0.0005	03/30/16 03/30/16	NO NO	Corrosion of galvanized pipes; erosion of natural deposits; discharge from metal refineries; runoff from waste batteries and paints.
Chromium (ppm) Well #2 Well #3	0.1 0.1	0.1 0.1	0.0017 0.0019	03/30/16 03/30/16	NO NO	Discharge from steel and pulp mills; erosion of natural deposits.
Copper (mg/l)	1.3	AL= 1.3	0.1	01/01/15- 12/31/17 (Triennial)	NO	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives. 11 samples collected.
Cyanide (ppm) Well #2 Well #3	0.2 0.2	.2 .2	0.015 0.015	06/15/15 06/15/15	NO NO	Discharge from steel/metal factories; discharge from plastic and fertilizer factories.
Fluoride (mg/l) Well #2 Well #3	4 4	4 4	0.302 0.241	03/30/16 03/30/16	NO NO	No fluoride is added to water system.
Haloacetic Acids (ppb) (HAA5) Well #2 and Well #3	N/A	60.0	11.0	08/09/16	NO	By-product of drinking water disinfection.
Lead (mg/l)	0	AL = .015	0.001	01/01/15- 12/31/17 (Triennial)	NO	Corrosion of household plumbing systems, erosion of natural deposits. 11 samples collected.
Mercury (inorganic) (ppm) Well #2 Well #3	0.002 0.002	0.002 0.002	0.0005 0.0005	03/30/16 03/30/16	NO NO	Erosion of natural deposits; discharge from refineries and factories; runoff from landfills; runoff from cropland.
Nitrate (as Nitrogen) (ppm) Well #2 Well #3	10 10	10 10	0.08 0.08	03/22/17 03/22/17	NO NO	Runoff from fertilizer use; leaching from septic tanks, sewerage; erosion of natural deposits.
Nitrite (as Nitrogen) (ppm) Well #2 Well #3	1 1	1 1	0.02 0.02	03/22/17 03/22/17	NO NO	Runoff from fertilizer use; leaching from septic tanks, sewerage; erosion of natural deposits.
Selenium (ppm) Well #2 Well #3	0.05 0.05	0.05 0.05	0.0025 0.0025	03/30/16 03/30/16	NO NO	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines.
Thallium (ppm) Well #2 Well #3	0.0005 0.0005	0.002 0.002	0.0005 0.0005	03/30/16 03/30/16	NO NO	Leaching from ore-processing sites; discharge from electronics, glass, and drug factories.
TTHM (Total trihalomethanes) (ppb) Well #2 and Well #3	N/A	80.0	29.1	08/09/16	NO	By-product of drinking water disinfection.
Uranium Well #4	0	30 ppb	0.5 ppb	06/05/17	NO	Erosion of natural deposits.
Disinfection By-Products						
Chlorine (mg/l)	4.0	4.0	1.10	01/01/17- 12/31/17	NO	Water additive used to control microbes. MRDL range 0.90 MG/L to 2.00 MG/L.
Microbiological Contaminants	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
# Total Coliform	0	>1	ND	Monthly	NO	Naturally present in the environment.

Units Description: (ppm): parts per million, or milligrams per liter (mg/l), (ppb): parts per billion, or micrograms per liter (µg/l), (pCi/l): picocuries per liter (a measure of radioactivity), % of monthly positive samples: Percent of samples taken monthly that were positive

HIDE-A-WAY LAKE ECHOES June 2018

You are Cordially Invited to High Tea!

When: Saturday, June 9, 2018
Where: Waters Edge Restaurant
Time: 11:00 am - 12:30 pm or
 1:00 pm - 2:30 pm
Menu: Assorted Teas and Traditional
 High Tea Sandwiches & Sweets
Cost: \$17.00 per person

*Attendees may bring their own teacup.
 Reservations are required and can be made by
 calling the HAWL Office at 601-798-1484.*

Father's Day Steak Dinner

Sunday, June 17, 2018

11:30 am - 1:00 pm or 1:30 pm - 3:00 pm
 Spend the day treating Dad to a delicious
 meal and quality family time at Waters
 Edge. The menu for the day will include:
 Ribeye steak with grilled shrimp and topped with a
 béarnaise sauce, baked potato, vegetable, soup,
 salad, and a delicious dessert for \$22.99 per
 person. A kid's menu will be available
 featuring a choice of chicken nuggets or two
 mini burgers, both with a side of
 baked macaroni for \$6.99.

Reservations are required and can be
 made by calling the HAWL Office at
 (601) 798-1484.

Swimming Lessons

June 11th - June 22nd Monday - Friday
 8:00 am - 8:45 am 6 years of age and older
 9:00 am - 9:45 am 3 years to 5 years of age
 Cost: \$100 per child

- * Only Property Owners may register swimmers.
 - * Lesson fees are non-refundable, as space is limited.
 - * Fees will be charged to the property owners' accounts.
 - * Class times could change due to participation level.
 - * Children must be accompanied by a parent.
 - * At the time of registration, any medical concerns must be disclosed for the Swim Instructor.
- Please call the Office at 601-798-1484 to register.**

Join Waters Edge for Brunch

Join Waters Edge for Brunch on Saturday,
 June 23, 2018, from 11:00 am - 2:00 pm.

Choose from three delicious dishes:

- Eggs Benedict with a cup of fresh fruit \$11.99
- Quiche and Pimento Cheese Grits with a cup of fresh fruit \$11.99
- Hamburger with French Fries \$9.99

*No menu items will be available for purchase.

Italian Night at Waters Edge

Saturday, June 16, 2018, from 5:00 pm - 8:00 pm,
 Waters Edge will be hosting Italian Night,
 featuring mouthwatering favorites: Italian Sausage,
 Pasta Alfredo, Lasagna, a cup of pasta fajioli soup,
 and a cannoli for dessert. The cost of the dinner is
 only \$14.99 per person. Please keep in mind that
 reservations are required and can be
 made by calling the
 Office at 601-798-1484.

Picayune on Stage Luncheon: Love Letters

Gather a group of friends to enjoy a delicious lunch as
 you take part in Picayune on Stage's benefit performance
 for Ms. Mississippi Senior America. *Love Letters* by
 A. R. Gurney will give you an intimate glimpse into the
 lives of Andrew Ladd, III (played by Joe Senseney)
 and Melissa Gardner (played by Bonnie Hughes) as they
 grow from a young age. Their friendship begins by
 writing thank you notes for birthday gifts and summer
 camp postcards. The correspondence continues through
 school, war, professional careers, marriage, and failures.
 The performance will keep you riveted as the letters come
 alive on stage. This unforgettable event will take place
Wednesday, June 27, 2018, at Waters Edge.
 The cost of the event is \$26.00 per person.
**Doors open at 11:30 am, lunch will be
 served at 12:00 pm, and the show begins at
 1:00 pm. Reservations are required for this
 event and can be made by calling the HAWL
 Office at 601-798-1484.**

The 2017 Drinking Water Report
 (CCR 2017) for HAWL's water system is now
 available. This report is on our website under the
 "Water System" tab and can be found at:

<http://www.hawllms.com/f/CCR17.pdf>
 Copies are also available in the HAWL
 office. Additionally, you may also call the
 office (601-798-1484) to request that
 a copy be mailed to you.
