Annual Drinking Water Quality Report
Town of Isola
PWS ID# 0270003
2018

CORRECTED COPY

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water.

Is my water safe?

Last year, as in years past, your tap water met all U.S. Environmental Protection Agency (EPA) and state drinking water health standards. Local Water vigilantly safeguards its water supplies and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard.

Where does my water come from?

Spata Sands Aquifer

Source water assessment and its availability

Yes. It will be at the local Town Hall.

How can I get involved?

By attending your local meetings at the Town Hall every first Tuesday at 4:00p.m.

2018 CCR Significant Deficiency and/or Violations Summary
Inadequate Follow-up of Previous Deficiencies

- Inadequate Internal Cleaning/Maintenance of Storage Tanks

Water Quality Data Table

The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently.
