2018 CERTIFICATION

Consumer Confidence Report (CCR)

Hidden Valley Light Assn.
Public Water System Name

0690053

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must email, fax (but not preferred) or mail, a copy of the CCR and Certification to the MSDH.** Please check all boxes that apply.

- Customers were informed of availability of CCR by: *(Attach copy of publication, water bill or other)*
 - Advertisement in local paper *(Attach copy of advertisement)*
 - On water bills *(Attach copy of bill) upon written request*
 - Email message *(Email the message to the address below)*
 - Other _____

Date(s) customers were informed: ___ / ___ / 2019 ___ / ___ / 2019 ___ / ___ / 2019

- CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: ___ / ___ / ___

- CCR was distributed by Email *(Email MSDH a copy)* Date Emailed: ___ / ___ / 2019 *(Provide Direct URL)*
 - As a URL _____
 - As an attachment _____
 - As text within the body of the email message _____

- CCR was published in local newspaper. *(Attach copy of published CCR or proof of publication)*

Name of Newspaper: _____
Date Published: ___ / ___ / ___

- CCR was posted in public places. *(Attach list of locations)* Date Posted: ___ / ___ / 2019
- CCR was posted on a publicly accessible internet site at the following address: _____ *(Provide Direct URL)*

CERTIFICATION
I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the Mississippi State Department of Health, Bureau of Public Water Supply

Edward Thompson
Name/Title *(Board President, Mayor, Owner, Admin. Contact, etc.)*

6-25-2019
Date

Submission options *(Select one method ONLY)*

Mail: (U.S. Postal Service)
MSDH, Bureau of Public Water Supply
P.O. Box 1700
Jackson, MS 39215

Email: water.reports@msdh.ms.gov

Fax: (601) 576 - 7800
****Not a preferred method due to poor clarity****

CCR Deadline to MSDH & Customers by July 1, 2019!

Hidden Valley Water Association
P. O. Box 716
Coldwater, MS 38618
Emergency # 662-671-1147

Name: Johnella Griffin

Account No. 000015

Month: JUNE

Previous Reading: 0184920

Current Reading: 0185000

Gallons Used: 80

Current Charges: \$25.00

PAY ON TIME AND SAVE!

**Note: CCR Report is available
upon written request!**

Hidden Valley Water Association
P. O. Box 716
Coldwater, MS 38618
Emergency # 662-671-1147

Name: Johnella Griffin

Account No. 000015

Month: JUNE

Previous Balance: \$68.61

Paid: \$68.61

Current Charges: \$25.00

Total Due: \$25.00

This bill is due by the 10th of month received.

Please return this portion with
your payment to above address.

2018 Quality Water Report

HIDDEN VALLEY LIGHT ASSN.

[PWS ID# 0690053]

JUNE 2019

RECEIVED WATER SUPPLY
2019 JUN 30 AM 8:00

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is a **ground water well that pumps from the SPARTA AQUIFER SYSTEM**. I'm pleased to report that our drinking water meets all federal and state requirements. This report shows our water quality and what it means. If you have any questions about this report or concerning your water utility, please contact Harry House (Certified Water Operator) at 8929 Arkabutla Rd. Coldwater, MS. 38618, 662-562-8456. We want our valued customers to be informed about their water utility.

Hidden Valley Light Assn. routinely monitors for constituents in your drinking water according to Federal and State laws. This table shows the results of our monitoring for the period of January 1st to December 31st, 2018. As water travels over the land or underground, it can pick up substances or contaminants such as microbes, inorganic and organic chemicals, and radioactive substances. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily pose a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Non-Detects (ND) - laboratory analysis indicates that the constituent is not present.

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

Picocuries per liter (pCi/L) - picocuries per liter is a measure of the radioactivity in water.

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal - The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

TEST RESULTS								
Contaminant	Violation Y/N	Date Collected	Level Detected You Water	Range of Detects or # of Samples Exceeding MCL/ACL	Unit Measurement	MCLG	MCL	Likely Source of Contamination
4006 combined uranium	n	7/16/2012	<0.5	0	ppb	30	30	
Inorganic Contaminants								
14. Copper	n	12/31/17	.1	0	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives

17. Lead	n	12/31/17	4	0	ppm	0.015	AL=.015	Corrosion of household plumbing systems, erosion of natural deposits	
1024 Cyanide	n	06/27/16	<0.015	0	ppm	0.2	0.2		
1074 Antimony, Total	n	12/12/16	<.0005	0	ppm	.006	.006		
1005 Arsenic	n	12/12/16	<.0005	0	ppm	.010	.010		
1010 Barium	n	12/12/16	.0426	0	ppm	2	2		
1075 Beryllium, Total	n	12/12/16	<.0005	0	ppm	.004	.004		
1015 Cadmium	n	12/12/16	<.0005	0	ppm	.005	.005		
1020 Chromium	n	12/12/16	.001	0	ppm	.1	.1		
1025 Fluoride	n	12/12/16	<0.1	0	ppm	4	4		
1035 Mercury	n	12/12/16	.001	0	ppm	.002	.002		
1045 Selenium	n	12/12/16	<.0025	0	ppm	.05	.05		
1085 Thallium, Total	n	12/12/16	<.0005	0	ppm	.002	.002		
1040 Nitrate (as Nitrogen)	n	04/02/18	<0.08	0	ppm	10	10		Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits
1041 Nitrite (as Nitrogen)	n	04/02/18	<0.02	0	ppm	1	1		Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits
1038 Nitrate+Nitrite (as N)	n	04/02/18	<0.1	0	ppm	10	10		Run-off from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits

Volatile Organic Contaminants

Chlorine		2018	0.00MG/L	0.00	ppm	0	MDRL=4	Water additive used to control microbes "YOUR WATER"
MRDL RANGE			1.00MG/L					
HIGHEST QTR		2018	0.07 MG/L					
RAA:								
1,2,4-Trichlorobenzene	n	12/18/17	<0.5	0	ppb	70	70	
Cis-1,2-Dichloroethylene	n	07/24/18	<0.5	0	ppb	70	70	
Xylenes, Total	n	07/24/18	<0.5	0	ppb	10000	10000	
Dichloromethane	n	07/24/18	<0.5	0	ppb	5	5	
O-Dichlorobenzene	n	07/24/18	<0.5	0	ppb	600	600	
P-Dichlorobenzene	n	07/24/18	<0.5	0	ppb	75	75	
Vinyl Chloride	n	07/24/18	<0.5	0	ppb	2	2	
1,1-Dichloroethylene	n	07/24/18	<0.5	0	ppb	7	7	
Trans-1,2-Dichloroethylene	n	07/24/18	<0.5	0	ppb	100	100	
1,2-Dichloroethane	n	07/24/18	<0.5	0	ppb	5	5	
1,1,1-Trichloroethane	n	07/24/18	<0.5	0	ppb	200	200	
Carbon Tetrachloride	n	07/24/18	<0.5	0	ppb	5	5	
1,2-Dichloropropane	n	07/24/18	<0.5	0	ppb	5	5	
Trichloroethylene	n	07/24/18	<0.5	0	ppb	5	5	
1,1,2-Trichloroethane	n	07/24/18	<0.5	0	ppb	5	5	
Tetrachloroethylene	n	07/24/18	<0.5	0	ppb	5	5	
Chlorobenzene	n	07/24/18	<0.5	0	ppb	100	100	
Benzene	n	07/24/18	<0.5	0	ppb	5	5	
Toluene	n	07/24/18	<0.5	0	ppb	1000	1000	
Ethylbenzene	n	07/24/18	<0.5	0	ppb	700	700	
Styrene	n	07/24/18	<0.5	0	ppb	100	100	

RUNNING ANNUAL AVERAGE

2950 TTHM	n	08/23/2016	<4	0	ppb	0	80	By-product of drinking water chlorination
2456 HAA5	n	08/23/2016	<6.0	0	ppb	0	60	

*SP _ Sampling Point

(14) Copper. Copper is an essential nutrient, but some people who drink water containing copper in excess of the action level over a relatively short amount of time could experience gastrointestinal distress. Some people who drink water containing copper in excess of the action level over many years could suffer liver or kidney damage. People with Wilson's Disease should consult their personal doctor.

Monitoring and Reporting of Compliance Data Violation

Significant Deficiencies:

During a sanitary survey conducted on 5/30/2013, the Mississippi State Department of Health cited the following significant deficiency(s):

- Inadequate application of treatment chemical and techniques (Primary MCLs)

Corrective actions: This system is now putting soda ash into the water to raise the ph. and ph is being measured

- Improperly constructed well (ex: not grouted)

Corrective actions: This system has entered into a Bilateral Compliance Agreement with MSDH to correct this deficiency, possibly connecting with Arkabutla Water Assn.

Lack of redundant mechanical components where treatment is required.

Corrective actions: This deficiency has been corrected 3 years ago.

Inadequate follow-up on previous deficiencies.

Corrective actions: The only deficiency not followed-up is **Improperly constructed well.**

ADDITIONAL INFORMATION for LEAD

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Senatobia Lakes, Estates Inc. is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing for \$10 per sample. Please contact (601)576-7582 if you wish to have your water tested.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline. Please call 662-562-8456 if you have questions.

We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.
