2019 CERTIFICATION

Consumer Confidence Report (CCR)

H. de A. W. Lake Echoes System

Public Water System Name

550013

List PWS ID #s for all Community Water Systems included in this CCR

The Federal Safe Drinking Water Act (SDWA) requires each Community Public Water System (PWS) to develop and distribute a Consumer Confidence Report (CCR) to its customers each year. Depending on the population served by the PWS, this CCR must be mailed or delivered to the customers, published in a newspaper of local circulation, or provided to the customers upon request. Make sure you follow the proper procedures when distributing the CCR. **You must email, fax (but not preferred) or mail a copy of the CCR and Certification to the MSDH.** Please check all boxes that apply.

- Customers were informed of availability of CCR by: (*Attach copy of publication, water bill or other*)
 - Advertisement in local paper (*Attach copy of advertisement*)
 - On water bills (*Attach copy of bill*) *emailed on 5-24-2020, mailed on 5-27-2020*
 - Email message (*Email the message to the address below*)
 - Other H. de A. W. Lake Echoes - June 20 20 20' had on 2 four monthly newsletters - pub on webs to 2nd email sent on 5-26-2020
- Date(s) customers were informed: 5/26/2020 5/27/2020 / / 2020

CCR was distributed by U.S. Postal Service or other direct delivery. Must specify other direct delivery methods used _____

Date Mailed/Distributed: / /

CCR was distributed by Email (*Email MSDH a copy*) Date Emailed: / / 2020

- As a URL _____ (*Provide Direct URL*)
- As an attachment
- As text within the body of the email message

CCR was published in local newspaper. (*Attach copy of published CCR or proof of publication*)

Name of Newspaper: _____

Date Published: / /

CCR was posted in public places. (*Attach list of locations*) Date Posted: 5/11/2020

CCR was posted on a publicly accessible internet site at the following address: on 5-12-2020

http://www.hawlms.com/E/CCR19.pdf (*Provide Direct URL*)

CERTIFICATION

I hereby certify that the CCR has been distributed to the customers of this public water system in the form and manner identified above and that I used distribution methods allowed by the SDWA. I further certify that the information included in this CCR is true and correct and is consistent with the water quality monitoring data provided to the PWS officials by the Mississippi State Department of Health, Bureau of Public Water Supply

Bruce Dentler / General Manager 6-2-2020

CCR Deadline to MSDH & Customers by July 1, 2020!

2019 Drinking Water Quality Report

HIDE-A-WAY WATER SYSTEM

James Fretwell, Certified Water Operator
PWS ID #MS0550013 Pearl River County
510 E. LAKESHORE DR. CARRIERE, MS 39426
www.hawllms.com office@hawllms.net
601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from three (3) wells (Well #2, Well #3, and Well #4) that draw ground water from the Miocene Series Aquifer.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the **second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club House.** We encourage all customers who have any concerns or questions to meet with us. Our association conducts its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. This is a very important meeting in which all customers are encouraged to attend. If you have any questions or concerns, you may contact the HAWL Office during business hours (Monday – Friday, 8:00 am – 4:30 pm) at 601-798-1484 or by email at office@hawllms.net.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address: <http://www.healthymms.com>. Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data though representative of the water quality may be more than one year old.

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hide-A-Way Water System is responsible for providing high-quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-7582 if you wish to have your water tested.

Terms and Abbreviations used in the Table of Test Results

<p>MCLG: <i>Maximum Contaminant Level Goal</i> - is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.</p> <p>MCL: <i>Maximum Contaminant Level</i> - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.</p> <p>AL: <i>Action Level</i> - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.</p> <p>ND: <i>Non-detect</i>.</p>
--

TEST RESULTS						
Contaminant	MCLG	MCL	Your Water	Sample Date	Violation Y/N	Likely Source of Contamination
Inorganic Contaminants						
Antimony (ppm) Well #2 Well #3 Well #4	0.006 0.006 0.006	0.006 0.006 0.006	0.0005 0.0005 0.0005	09/04/18 12/02/19 01/22/19	NO NO NO	Discharge from petroleum refineries; fire retardants; ceramics; electronics; solder.

Hide-A-Way Lake Echoes

June 2020

Visit hawls.com for the Most Up-to-Date Community Information

The HAWL website, hawls.com, is frequently updated with information regarding community operations as we navigate COVID-19. In addition to informational bulletins, you will also find the complete 2020 Pool Season Procedures. (Procedures are also outlined on page 3 of this *Echoes*.)

Father's Day Lunch

Join Waters Edge on Sunday, June 21, 2020, from 11:00 am - 2:00 pm for a Father's Day Lunch. Enjoy a fried chicken plate (two pieces of white or dark meat), corn on the cob, baked beans, and coleslaw. \$12.99 for an adult's plate and \$6.50 for a kid's plate (one piece of chicken). *No menu items will be available for purchase.

2019 Drinking Water Report

The **2019 Drinking Water Report** (CCR 2019) for HAWL's water system is now available. This report is on the HAWL website under the "Water System" tab and can be located directly at: <http://www.hawls.com/f/CCR19.pdf>. Copies are also available in the HAWL Office. Additionally, you may also call the Office (601-798-1484) to request that a copy be mailed to you.

Enjoy Indoor or Deck Dining at Waters Edge

The Main Dining Room and deck are open with limited seating. Call ahead during restaurant operating hours for reserved seating. If you prefer to take your meal to-go, enjoy the convenience of takeout. Simply call Waters Edge during operating hours at 601-798-1484 to place your order and the restaurant will meet you in the parking lot with your order. You can pay directly or Property Owners may charge to your account.

HAWL Office Operations

The Office is open regular office hours, Monday - Friday from 8:00 am - 4:30 pm and Saturdays until the end of July from 9:00 am - 12:00 pm. Please call the Office at 601-798-1484 or contact by email at office@hawls.net as most business can be conducted over the phone or via email.

The Office/lobby area is limited to three people at a time. A personal space of 6 feet should be maintained between all individuals. **Please DO NOT ENTER if you are experiencing ANY type of illness.**

Channeled Apple Snails

These snails have been in our lake for over 20 years. The problem with the snails is the ecological damage they can cause, which threatens the marine life of our lake. The first visible signs are usually the egg clusters which are bright pink clumps of 200-600 tiny eggs attached to a tree, stump, pilings, or other objects at the water line. If you see these egg clusters, please **scrape them off into the water** where they cannot hatch. This will help reduce the population. To view a picture of this and for more information, see the HAWL Informational Links tab at hawls.com.

Sign up for *Happenings In HAWL*

The *Happenings In HAWL* email is a fast and easy way to stay up-to-date on what is happening in your community. Don't miss out on important messages, such as the email newsletter, the newest edition of *Echoes*, and important events in the community delivered to your inbox. Registering is easy; sign up today!

- Visit the HAWL website at www.hawls.com.
- Select the "Happenings In HAWL Email" tab and follow the instructions given.
- You **must confirm** your subscription through the email you will receive shortly after registering.

Contact the HAWL Office if you need assistance signing up for *Happenings In HAWL*.

Important Security Information

During June and July, all traffic violation fines will be doubled. The goal is to create awareness of roadway safety, not to collect fines. Our security personnel are responsible for enforcing the rules set forth by the Board of Directors for the safety and well-being of all our property owners and their guests.

Lake Violations

Three lake violations in one boat decal season will result in the revoking of all boat decals for the property owner.

Is my water safe?
Last year, in 18 years past, your tap water met all U.S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because satisfied customers are our best allies.

Do I need to take special precautions?
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/CDC's for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?
Our water comes from three (3) wells (Well #2, Well #3, and Well #4) that draw ground water from the Moxie Series Aquifer.

Source water assessment and its availability:
Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?
Drinking water, including bottled water, may occasionally be exposed to certain low-level amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?
Our board meets on the second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club Home. We encourage all customers who have any concerns or questions to meet with us. Our operators evaluate water quality on a regular basis. For more information, please contact the Environmental Protection Agency at 1-800-426-4791.
