## Preface

### Overview

This publication reflects data collected in the hospital licensure process. A historical accounting of the responsibility for this function began in 1946 when the Mississippi Commission on Hospital Care was legislatively authorized to license non-federal hospitals and prepare an annual report. In 1979 the legislature passed a bill to merge the responsibilities of the Commission on Hospital Care into the Mississippi Health Care Commission and in 1986 another bill was passed to merge the responsibilities into the State Department of Health.

In October 2005, the Division of Health Facilities Licensure and Certification mailed copies of its combined "Annual Hospital Report and Application for Renewal of Hospital Licensure" and the American Hospital Association's "Annual Survey of Hospitals" to all non-federal hospitals in Mississippi. This survey is the source of statistics for this publication. A copy of the survey form is included in Appendix E. The hospital survey forms were reviewed and automated by the Division of Public Health Statistics. Questions regarding reported data were answered by hospital personnel through letters or telephone calls.

In 1984, for planning purposes, the Statewide Health Coordinating Council (SHCC) established seven hospital service areas based on where patients sought hospital care. For ease in using the data presented in this report some tables are presented by the planning service areas. Map II displays the hospital service Areas. This Annual Report is based on 108 hospitals; 93 acute care, 4 psychiatric, 1 rehabilitation, 1 OB/GYN, and 9 long-term acute care. The five federal hospitals in Mississippi have been excluded. Additionally, East Mississippi State Hospital, Mississippi State Hospital, North Mississippi State Hospital, North Mississippi State Hospital Corinth Crisis Intervention Center, Oak Circle Center, South Mississippi State Hospital, South Mississippi State Hospital Crisis Intervention Center and Whitfield Medical/Surgical Hospital have been excluded from all data except Table II and Table III. Map I shows location of hospitals by type of facility, Table II shows accreditations and Table III displays employees.

### Hospital Ownership and Certification

The overwhelming majority, 93, of hospitals in Mississippi are classified as medical/surgical. These figures were based on the type of service that the hospitals provided to the majority of admissions. Data from the nine long-term care hospitals are included with the 93 acute care hospitals plus the one OB/Gyn facility. The other acute care facility, Whitfield Med/Surg is not included in the acute care statistics. The nine counties in Mississippi that do not have a hospital are Amite, Benton, Carroll, Greene, Issaquena, Itawamba, Kemper, Smith, and Tunica.

Ownership and control of hospitals and beds are shown in Tables I-A through I-D. In 2005 there were 11,584 licensed acute care beds. (This count excludes Whitfield Medical Surgical Hospital and includes Mississippi Hospital for Restorative Care, Promise Specialty Hospital of Vicksburg, Regency Hospital of Hattiesburg, Regency

Hospital of Meridian, Select Specialty Hospital of Gulfport, Select Specialty Hospital Jackson and Specialty Hospital of Meridian.) Nineteen hospitals reported 767 licensed psychiatric beds. Approximately 67% of the beds, 479, were located at acute care hospitals. Twelve hospitals reported 353 licensed chemical dependency beds. Fifteen hospitals reported 388 rehabilitation beds. Eighty percent (327) were located at 15 acute care facilities.

Table II indicates that 60% of the hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organization (JCAHO). Ninety-three percent of the hospitals participate in Blue Cross and 96.6% participate in Medicare, and 91.6% participate in Medicaid. This represents all 117 hospitals.

### Hospital Employees

Table III displays hospital personnel. Mississippi's hospitals employed 58,455 people during FY 05, of which 78.2% were full-time employees and 21.8% were part-time employees.

### Services Utilization

Tables IV - XII show number of procedures by hospital service area for the following categories:

Head and Body CT Scans	Cardiac Catheterization
Diagnostic Radioisotope	Angioplasty
X-Ray	Cardiac Surgeries
Magnetic Resonance Imaging	Renal Extracorporeal Shock
Ultrasound	Wave Lithotripter
Digital Subtraction Angiography	Physical Therapy
Single Photon Emission	Occupational Therapy
Computerized Tomography (SPECT)	Geriatric Patients Served
Linear Accelerator	Respite Patients Served
Radioactive Implants	Inpatient and Outpatient
Therapeutic Radioisotope	Surgeries
X-Ray Radiation Therapy	Outpatient Utilization
Cardiac Catheterization	Rural Health Clinics

Seventy hospitals reported 118,682 inpatient surgeries and seventy-three hospitals reported 147,702 outpatient surgeries. This count includes only surgeries performed at acute care hospitals. As Table X shows, the majority of surgeries were performed in Service Area 3.

Table XI presents outpatient emergency visits and clinic/other visits by Hospital Service Area. Service Area 3 reported both the most outpatient emergency visits and clinic/other visits.

Thirty-five hospitals reported 46 rural health clinics and 348,471 rural health clinic visits. Table XII shows rural health clinics and visits by hospital service area. One hospital was unable to provide rural health visits.

## Bed Changes

The following hospitals changed their licensed bed capacity:

	2004	2005
Hancock Medical Center	104	25
Perry County General Hospital	29	30
Tri Lakes Medical Center	93	64
Walshall County General Hospital	49	35

And, the following hospitals changed bed totals after the reporting period.

Covington County Hospital  
Hardy Wilson Hospital  
Jeff Davis Community Hospital  
Newton Regional Hospital

## Name Changes

King's Daughters Hospital Greenville became Delta Regional Medical Center West Campus.

## Hospital Openings

Mississippi State Hospital Crisis Intervention Center Cleveland, Mississippi State Hospital Grenada Crisis Intervention Center, Newton Crisis Intervention Center opened during the reporting period.

Two hospitals opened after October 1, 2005 and will be included in next year's report. They are Batesville Specialty Hospital and Greene County Hospital.

## Licensed Beds, Average Length of Stay, Average Daily Census and Occupancy Rate

Table XIII shows hospitals and beds by bed size groupings. Occupancy rates are also shown by bed size. Under acute care the greatest number of hospital beds was reported at hospitals with 25 - 49 beds, 50-99 beds, and 100-199 beds. Of the 16 hospitals reporting psychiatric beds, three were licensed as psychiatric hospitals. Three hundred fifty-three chemical dependency beds were reported at 12 hospitals. Fifteen hospitals reported 388 rehabilitation beds.

Table XIV-A gives average lengths of stay (ALOS), average daily census (ADC), percentages of occupancy for each hospital by licensed acute care bed capacity and state totals. Psychiatric data can be found in Table XIV-B, chemical dependency data in Table XIV-C, and rehabilitation data in Table XIV-D.

A comparison of licensed beds and beds set up and staffed is shown in Tables XV-A - XV-D. Of the 11,584 licensed acute beds, 10,613 beds were set up and staffed. Six

hundred sixty-five of the 719 licensed psychiatric beds were set up and staffed.

Three hundred twenty-nine of the 353 licensed chemical dependency beds were set up and staffed.

#### Swing Beds

Table XVI shows the number of swing beds, average length of stay and average daily census by facility. Table XVII shows the destination of discharged swing bed patients, number referred to home health, and number of acute care beds designated as swing beds by service area. More than one-half (63.4%) were discharged to their home, 14.7% were discharged to nursing homes, 10.8% were admitted to hospitals, 1.2% were admitted to personal care homes, and the remaining 9.9% were discharged to other destinations.

Swing bed utilization in 2005 by hospital service area is shown in Table XVIII.

#### Hospital Use Statistics

Table XIX shows the population of each service area in comparison with its licensed bed capacity. Service areas are maintaining a relatively close correlation between the percentage of population and percentage of licensed hospital beds. Service Area 3, including the city of Jackson and Hinds County, has the largest population at 26.1% and the most beds at 31%. Licensed beds by type are also shown by hospital service area.

Table XX-A provides information on acute hospital beds, admissions, discharges, deaths and inpatient days by service area and county. Psychiatric, chemical dependency and rehabilitation beds located in acute care facilities are included in Table XX-B along with those facilities that are licensed as psychiatric, or rehabilitation facilities. There are 11,671 licensed acute care hospital beds in Mississippi, 710 psychiatric beds, 355 chemical dependency beds, and 407 rehabilitation beds.

A comparison of utilization statistics for 1984, 1994 and 2005 is shown in Table XXI. While there wasn't much change in acute care data from 1994 to 2005, most psychiatric, chemical dependency and rehabilitation data increased.

Table XXII deals with newborn statistics. Once again, Service Area 3 leads in every category, as does Hinds County. Table XXIII compares with the newborn statistics of 2005 with those of 1999 and 1994. There was a -8.4% percent of change in bassinets and a 17.4 percent of change in obstetrical beds set up and staffed. Deliveries remained about the same from 1994-2005. The percent of change in fetal deaths was -5.1%.

Table XXIV displays discharges, discharge days, admissions and inpatient days by service area for DP SNF, geriatric psychiatric, patients 65 and older, Medicare and Medicaid.

Table XXV shows beds set up, discharges, discharge days and inpatient days for the state's hospitals. Data reported by specialty hospitals is also included. Data is broken down into acute care, intensive care, other care, and long-term care. No data was reported for psychiatric intensive care, hospice, psychiatric long term care or mental retardation.

#### Obstetrical Utilization

2005 obstetrical utilization is shown in Appendix A.

#### 2005 Hospital Patient Origin Data

Percent of hospital discharges by adjacent county of residence by rank order for combined four quarter patient origin study are shown in Appendix B. Discharges from other counties are grouped together under all others. Patient Origin Study dates used in combined data include October 7 - 20, 2004, January 6 - 19, 2005, April 7 - 20, 2005 and July 7 - 20, 2005. These dates correspond with the majority of hospitals' fiscal year of October 1, 2004 through September 30, 2005.

#### Hospital Listing

Hospitals are listed alphabetically by county in Appendix C. The hospital directory is located in Appendix E. The licensed bed capacity is reported as of January 1, 2005 whereas the rest of the report is as of the end of the reporting period, usually September 30, 2005.

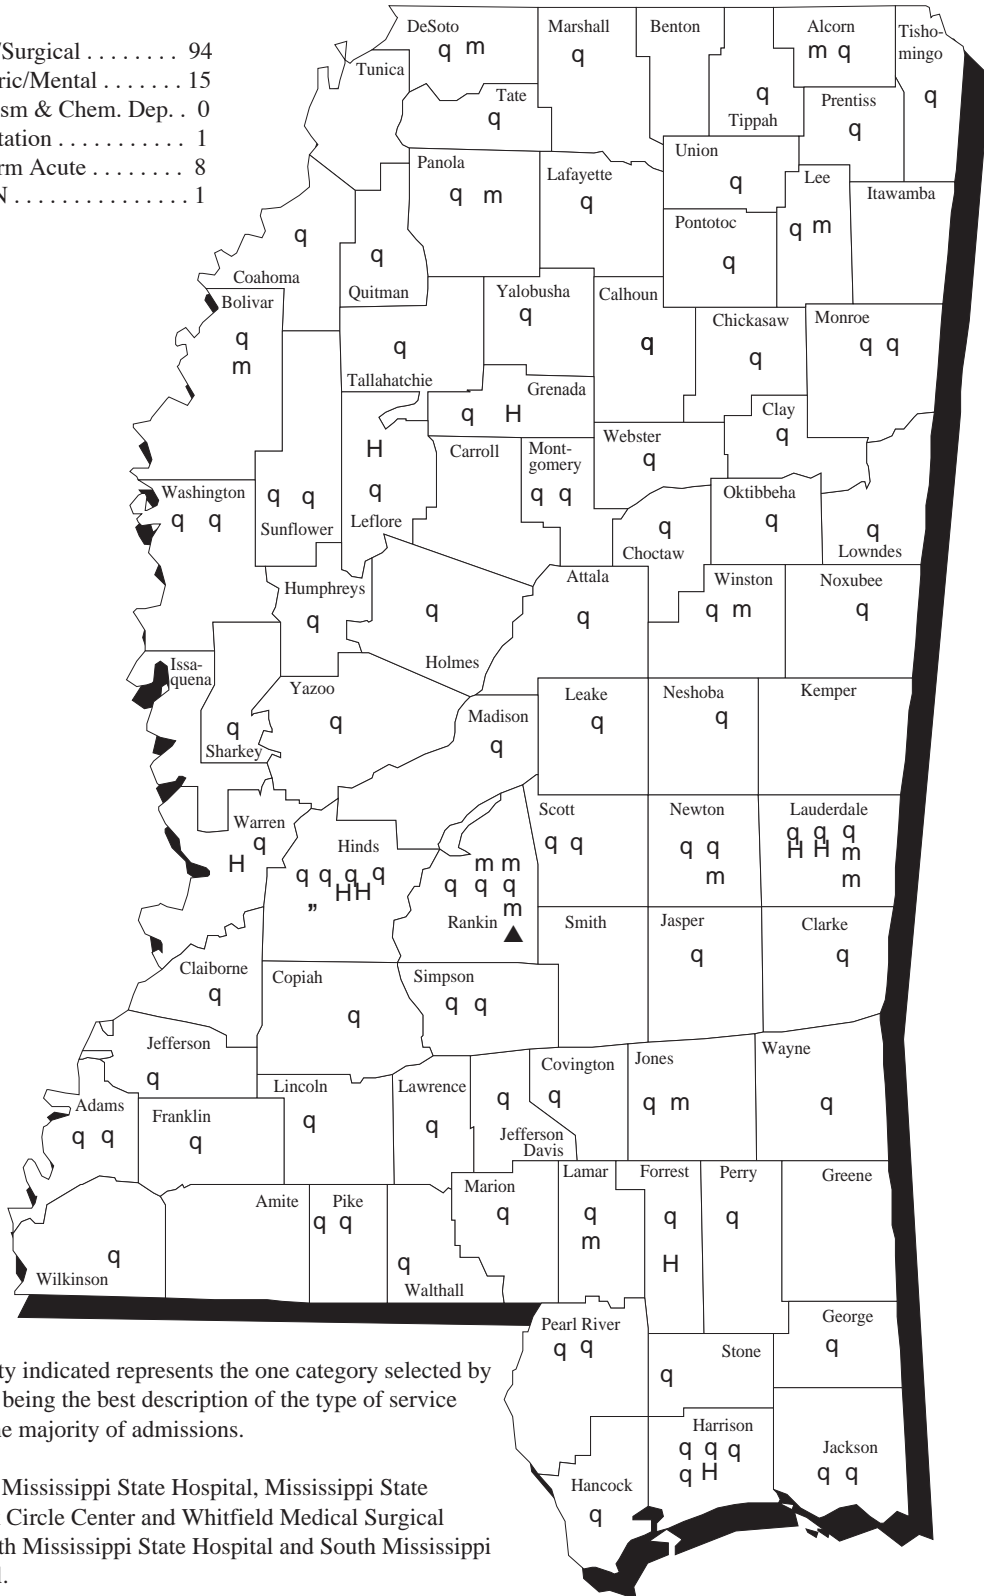

#### State Owned Facilities

Data relating to state owned facilities may be found in Appendix D. These include East Mississippi State Hospital and Mississippi State Hospital.
