RECIPIENTS:  All Physicians, Hospitals, ERs, ICPs, NPs, and Healthcare Providers – Statewide

Wednesday, December 2, 2020

SUBJECT:  MS Residents Advised to Avoid Social Gatherings

Dear Colleagues,

Due to the rapidly rising burden of COVID-19 cases, excessive hospitalizations and the high risk of COVID-19 infection in the community, the Mississippi State Department of Health (MSDH) is issuing the following Public Health Guidance.

All residents of Mississippi should avoid any social gathering that includes individuals outside of the nuclear family or household. MSDH recommends that Mississippians only participate in work, school or other absolutely essential activities.

MSDH recommends that all Mississippians protect themselves and their families by avoiding public or social gatherings such as the following:

- Social events or parties
- Family gatherings outside of the household or nuclear family
- Weddings
- Funerals (other than close family and preferably outdoors)
- Sporting events
- In-person church services

Thomas Dobbs, MD, MPH
State Health Officer
Alerting Message Specification Settings

Originating Agency: Mississippi State Department of Health
Alerting Program: MS Health Alert Network (MS HAN)
Message Identifier: MSHAN-20201202-00478-ALT

Status (Type): Actual ()
Message Type: Alert
Reference: MSHAN-00478
Severity: Unknown
Acknowledgement: No
Sensitive: Not Sensitive
Message Expiration: Undetermined
Urgency: Undetermined
Delivery Time: 600 minutes

Definition of Alerting Vocabulary and Message Specification Settings

Originating Agency: A unique identifier for the agency originating the alert.
Alerting Program: The program sending the alert or engaging in alerts and communications using PHIN Communication and Alerting (PCA) as a vehicle for their delivery.
Message Identifier: A unique alert identifier that is generated upon alert activation (MSHAN-yyymmdd-hhmm-TTT (ALT=Health Alert, ADV=Health Advisory, UPD=Health Update, MSG/INFO=Message/Info Service)).
Program (HAN) Type: Categories of Health Alert Messages.
Health Alert: Conveys the highest level of importance; warrants immediate action or attention.
Health Advisory: Provides important information for a specific incident or situation; may not require immediate action.
Health Update: Provides updated information regarding an incident or situation; unlikely to require immediate action.
Health Info Service: Provides Message / Notification of general public health information; unlikely to require immediate action.
Status (Type):
  Actual: Communication or alert refers to a live event
  Exercise: Designated recipients must respond to the communication or alert
  Test: Communication or alert is related to a technical, system test and should be disregarded
### Message Type:
- **Alert:** Indicates an original Alert
- **Update:** Indicates prior alert has been Updated and/or superseded
- **Cancel:** Indicates prior alert has been cancelled
- **Error:** Indicates prior alert has been retracted

### Reference:
For a communication or alert with a Message Type of “Update” or “Cancel”, this attribute contains the unique Message Identifier of the original communication or alert being updated or cancelled. “n/a” = Not Applicable.

### Severity:
- **Extreme:** Extraordinary threat to life or property
- **Severe:** Significant threat to life or property
- **Moderate:** Possible threat to life or property
- **Minor:** Minimal threat to life or property
- **Unknown:** Unknown threat to life or property

### Acknowledgement:
Indicates whether an acknowledgement on the part of the recipient is required to confirm that the alert was received, and the timeframe in which a response is required (Yes or No).

### Sensitive:
- **Sensitive:** Indicates the alert contains sensitive content
- **Not Sensitive:** Indicates non-sensitive content

### Message Expiration:
Undetermined.

### Urgency:
Undetermined. Responsive action should be taken immediately.

### Delivery Time:
Indicates the timeframe for delivery of the alert (15, 60, 1440, 4320 minutes (.25, 1, 24, 72 hours)).
