The Mississippi State Department of Health provides a voluntary case management, home visiting program for Medicaid-eligible high-risk pregnant women and infants at no cost to the physician’s office.
• Print out and complete the infant and/or maternity screening form at HealthyMS.com/phrm.

• A physician, physician assistant, nurse practitioner or nursing midwife will sign the form(s) using his or her professional title, telephone number and address.

• Fax completed forms to the PHRM/ISS program at 601-576-7825.

About the PHRM/ISS Program

The PHRM/ISS staff provides face-to-face and home visits utilizing research-based health education, reinforcing and educating on:

• Benefits of breastfeeding
• Pregnancy nutrition
• Safe sleep practices
• Prenatal/Postnatal care
• Completion of health insurance paperwork
• Reproductive life planning
• When to follow up with a provider, or go to the emergency room
• Appropriate infant developmental milestones
• Importance of immunization
• Education on pregnancy
• Medication compliance
• Developmental stages
