Appendix E	Hospital Directory.....	87

Preface

Overview

This publication reflects data collected in the hospital licensure process. A historical accounting of the responsibility for this function began in 1946 when the Mississippi Commission on Hospital Care was legislatively authorized to license non-federal hospitals and prepare an annual report. In 1979 the legislature passed a bill to merge the responsibilities of the Commission on Hospital Care into the Mississippi Health Care Commission and in 1986 another bill was passed to merge the responsibilities into the Mississippi State Department of Health.

This Annual Report is based on 111 hospitals; 94 acute care, 4 psychiatric, 1 rehabilitation, 1 OB/GYN, and 10 longterm acute care. The five federal hospitals in Mississippi have been excluded. Additionally, East Mississippi State Hospital, North Mississippi State Hospital, Oak Circle Center, South Mississippi State Hospital, and Whitfield Medical/Surgical Hospital have been excluded from all data except Table II and Table III. Table II shows accreditations and Table III displays employees.

Hospital Ownership and Certification

Ninety-four hospitals in Mississippi are classified as medical/surgical. These figures were based on the type of service that the hospitals provided to the majority of admissions. Data from the ten long-term care hospitals are included with the 94 acute care hospitals plus the one OB/Gyn facility. The other acute care facility, Whitfield Med/Surg is not included in the acute care statistics. The seven counties in Mississippi that do not have a hospital are Amite, Benton, Carroll, Humphreys, Issaquena, Itawamba, and Tunica.

Ownership and control of hospitals and beds are shown in Tables I-A through I-D. In 2014 there were 11,393 licensed acute care beds. (This count excludes Whitfield Medical Surgical Hospital and includes Mississippi Hospital for Restorative Care, Promise Specialty Hospital of Vicksburg, Regency Hospital of Hattiesburg, Regency Hospital of Jackson, Regency Hospital of Meridian, Select Specialty Hospital of Gulfport, Select Specialty Hospital Jackson, Specialty Hospital of Meridian and Long Term Acute Hospital of Greenwood.

Eighteen hospitals reported 876 licensed psychiatric beds. Seventy-four percent of the beds, 652, were located at acute care hospitals. Twelve hospitals reported 290 licensed chemical dependency beds. Twelve hospitals reported 339 rehabilitation beds. Seventy-six percent, 273, were located at 10 acute care facilities.

Table II indicates that 48.3% of the hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organization (JCAHO).

Twelve percent of hospitals participate in DNV Healthcare. Ninety-four percent of the hospitals participate in Blue Cross and 98.3% participate in Medicare, and 96.6% participate in Medicaid. This represents all 116 hospitals.

Hospital Employees

Table III displays hospital personnel. Mississippi's hospitals employed 58,725 people during 2014, of which 79.8% were full-time employees and 20.2% were part-time employees.

Services Utilization

Tables IV - XII show number of procedures by hospital service area for the following categories:

Head and Body CT Scans	Cardiac Catheterization
Diagnostic Radioisotope	Angioplasty
XRays	Cardiac Surgeries
Magnetic Resonance Imaging	Renal Extracorporeal Shock
Ultrasound	Wave Lithotripter
Digital Subtraction Angiography	Physical Therapy
Single Photon Emission	Occupational Therapy
Computerized Tomography (SPECT)	Geriatric Patients Served
Linear Accelerator	Respite Patients Served
Radioactive Implants	Inpatient and Outpatient
Therapeutic Radioisotope	Surgeries
Cardiac Catheterization	Outpatient Utilization
	Rural Health Clinics

Fifty-nine hospitals reported 97,267 inpatient surgeries and sixty-seven hospitals reported 182,240 outpatient surgeries. This count includes only surgeries performed at acute care hospitals. As Table X shows, the majority of surgeries were performed in Service Area 5.

Table XI presents outpatient emergency visits and clinic/other visits by Hospital Service Area. Service Area 5 reported both the most outpatient emergency visits and clinic/other visits.

Forty-three hospitals reported 103 rural health clinics and 991,078 rural health clinic visits. Table XII shows rural health clinics and visits by hospital service area. Four hospitals were unable to provide rural health visits.

Bed Changes

Eight hospitals changed their bed size during the reporting period. Calhoun Health Services decreased their bedsize from 30 to 25, Mississippi Hospital for Restorative Care decreased their beds from 25 to 20, University Hospitals and Health System decreased from 722 to 697, Neshoba County General Hospital decreased their licensed bed

capacity from 82 to 48 and Tippah County Hospital decreased from 45 to 25 beds. Three hospitals increased their licensed beds. Parkwood Behavioral Health System increased from 88 beds to 108 beds, Hancock Medical Center increased from 86 licensed beds to 102 licensed beds and River Regio Health Sytem increased by 20 beds to 361 licensed beds.

During the reporting period, one hospital closed. Kilmichael Hospital, a 19 bed acute care hospital in Montgomery County, closed.

Utilization

Table XIII shows hospitals and beds by bed size groupings. Occupancy rates are also shown by bed size. Under acute care the greatest number of hospital beds was reported at hospitals with 25 - 49 beds, 50-99 beds, and 100-199 beds. Of the 18 hospitals reporting psychiatric beds, three were licensed as psychiatric hospitals. Two hundred ninety chemical dependency beds were reported at 12 hospitals. Twelve hospitals reported 339 rehabilitation beds.

Table XIV-A gives average lengths of stay (ALOS), average daily census (ADC), percentages of occupancy for each hospital by licensed acute care bed capacity and state totals. Psychiatric data can be found in Table XIV-B, chemical dependency data in Table XIV-C, and rehabilitation data in Table XIV-D.

A comparison of licensed beds and beds set up and staffed is shown in Tables XV-A - XV-D. Of the 11,393 licensed acute beds, 9,946 beds were set up and staffed. Eight hundred sixty-three of the 876 licensed psychiatric beds were set up and staffed. Two hundred twenty-one of the 290 licensed chemical dependency beds were set up and staffed.

Swing Beds

Table XVI shows the number of swing beds, average length of stay and average daily census by facility. Table XVII shows the destination of discharged swing bed patients, number referred to home health, and number of acute care beds designated as swing beds by service area. Over two-thirds (66.6%) were discharged to their home, 15.6% were discharged to nursing homes, 9.4% were admitted to hospitals, and the remaining 8.2% were discharged to other destinations.

Swing bed utilization in 2014 by hospital service area is shown in Table XVIII.

Hospital Use Statistics

Table XIX shows the population of each service area in comparison with its licensed bed capacity. Service areas are maintaining a relatively close correlation between the percentage of population and percentage of licensed hospital beds. Service Area 5, including the city of

Jackson and Hinds County, has the largest population at 25.1% and the most beds at 30.6%. Licensed beds by type are also shown by hospital service area.

Table XX-A provides information on acute hospital beds, admissions, discharges, deaths and inpatient days by service area and county. Psychiatric, chemical dependency and rehabilitation beds located in acute care facilities are included in Table XX-B along with those facilities that are licensed as psychiatric, or rehabilitation facilities. There are 11,393 licensed acute care hospital beds in Mississippi, 876 psychiatric beds, 290 chemical dependency beds, and 339 rehabilitation beds.

A comparison of utilization statistics for 2004, 2009 and 2014 is shown in Table XXI. While there wasn't much change in acute care data from 2003 to 2014, most psychiatric increased while chemical dependency and rehabilitation data decreased.

Table XXII deals with newborn statistics. Once again, Service Area 5 leads in every category, as does Hinds County. Table XXIII compares with the newborn statistics of 2014 with those of 2009 and 2004. There was a -6.5% percent of change in bassinets and a -17.8 percent of change in obstetrical beds set up and staffed. Deliveries saw a -6.5 percent of change from 2004. The percent of change in fetal deaths was negligible.

Table XXIV displays discharges, discharge days, admissions and inpatient days by service area for DP SNF, geriatric psychiatric, patients 65 and older, Medicare and Medicaid.

Table XXV shows beds set up, discharges, discharge days and inpatient days for the state's hospitals. Data reported by specialty hospitals is also included. Data is broken down into acute care, intensive care, other care, and long-term care. No data was reported for psychiatric intensive care, hospice, psychiatric long term care or mental retardation.

Obstetrical Utilization

2014 obstetrical utilization is shown in Appendix A.

Hospital Listing

Hospitals are listed alphabetically by county in Appendix C. The hospital directory is located in Appendix E. The licensed bed capacity is reported as of January 1, 2015 whereas the rest of the report is as of the end of the reporting period, usually September 30, 2014.

State Owned Facilities

Data relating to state owned facilities may be found in Appendix D. These include East Mississippi State Hospital and Mississippi State Hospital.

Table I-A
