

DEEP SOUTH BIOSAFETY WORKER TRAINING PROGRAM

WEBINAR SERIES

Operational Challenges Facing EMS during COVID-19

Tuesday
July
21
12:00 – 1:00 PM CST
Cost: FREE

The COVID-19 pandemic has created numerous challenges for EMS including out-of-hospital management of patients and PPE use by EMS personnel.

Dr. Lekshmi Kumar will discuss the operational changes that have been adapted by Grady EMS during the COVID-19 pandemic including changes to personnel and PPE for patient and personal safety, airway management, resuscitation, and cessation when responding to a cardiac arrest patient. Dr. Isakov will discuss best practices in protecting EMS healthcare personnel and strategies for overcoming PPE resource challenges and complacency in the use of PPE by EMS personnel.
