

MISSISSIPPI STATE DEPARTMENT OF HEALTH

Position Available: Epidemiologist Team Lead

The Mississippi State Department of Health seeks an Epidemiologist Team Lead to perform supervisory and advanced professional analytical work in research, surveillance, detection, and prevention of chronic diseases in the Office of Preventive Health.

This position will provide epidemiological support, engage in data analysis and reporting, perform chronic disease documentation, engage in public health advocacy to promote health care awareness and preventive measures, actively engages in new research initiatives such as the “Health Initiative Survey” and assists in the development of a state cancer screening registry. The Epidemiologist Team Lead will supervise two Epidemiologists.

The position requires a master’s degree in Public Health, its equivalent or its foreign equivalent, plus two years’ experience as an Epidemiologist. Send résumé by postal mail or e-mail to:

McKeith Jenkins
